

Geog 5: 2nd Test Questions: Study Sheet #1

1. Sacramento river system is 1/4 of California's runoff.

True. Yokeum.

2. The Salton Sea was created in what year?

A. 1988

B. 1850

C. 1935

D. 1999

E. 1907

The answer is E. Yokeum.

Chapter 6

1. Cement is California's most profitable natural resource.

False, the answer is patrolium. Yokeum.

2. Where are the largest borate reserves in the world are found?

A. Yosemite

B. Lake Tahoe

C. Death Valley

D. Salton Sea

E. None of the above

The answer is C. Yokeum.

The miners, in the 1849 Gold Rush, were the select individuals that profited the most off the mined gold.

FALSE the merchants made the most money off the mined gold. Matt Ocampo

What group of people started the Fishermans Warf in San Francisco.

a. Italians

b. French

c. Chinese

d. Japanese

e. Mexicans

Answer: a. Italians

Matt Ocampo

The Salton Sea was created naturally over time. FALSE its man made. Matt Ocampo

California rains are what?

a. only in the winter

b. only in the fall

c. Couple times a year.

d. In the spring.

e. Inconsistant

ANSWER: e inconsistant. Matt Ocampo

1) Sublimation is the process in which solid matter goes to vapor, but it goes through the liquid state first.

Answer: Flase. Sublimation is the process in which liquid matter goes to vapor WITHOUT going through the liquid stage. Roca

2) A natural resource is any useful property that is native to an area.

Answer: True. Roca

- 3) And Ore is a:
- A) a fowl smell
 - B) an erie feeling
 - C) a profitable mineral
 - D) none of the above. Roca
- 4) The city that producess the most petrolium in the California is:
- A) Prunedale
 - B) Willington
 - C) Washington
 - D) Yosemite Roca

1. The North-West is the wetttest climate in california. True- Nader

2. Runoff mainly happens in: C-Nader

- A. summer
- B. in cities
- C. winter to spring
- D. summer to fall
- E. The gutter

Class 10

1. The top five minerals are A. _____, B _____, C _____, D _____, E _____.
NADER

- petroleum
- natural gas
- sand and gravel
- cement
- boron

2. Water is the most important natural resource. True-Nader

1) California has 42 1/2 million acres of timber. True Daso

2) One of California's principle resources is A.

- A. petrolium B.iron ore C. coal D. ceramics Daso

1. What are the two elements that cause "hard water"?

- a. Chromium and Arsenic
- b. Chloride and Potassium
- c. Calcium and Magnesium
- d. Sodium and Lead

Answer: C. Calcium and Magnesium Silva

2. Tap water and bottle water can have the same impurities T/F

Answer: FALSE Silva

10/4/2007 Lecture

1. What high school in California has an oil well on campus?

- a. Cabrillo College
- b. Beverly Hills High
- c. Kirby St John Prep school
- d. Salinas High school

Answer: b. Beverly Hills High Silva

2. Who benefited and profited the most from the 1849 California Gold Rush?

- a. Miners
- b. Merchants
- c. Bartenders
- d. Prostitutes

Answer: b. Merchants Silva

1) Sublimation is the transition of water as a solid directing into a gas, skipping the liquid phase.

True/False True Cook

2) _____ causes "hard water."

- A) Table salt B) Magnesium salts C) Calcium Salts D) Both B & C E) All of the above
- D Cook

1) 70% of ground, stream flowing water comes from 1% of the state.

True/False False, the water comes from 30% of the state Cook

2) 80% of water used in California is used in _____.

- A) Golf Courses B) Agriculture C) Industry D) Nuclear Reactors D) None of the above
- B Cook

Lecture 9

1) In California, 70% of stream flow comes from the wettest 20% of the state.

True. Fotinakes

2) Which of these is NOT a major river system which contributes to runoff?

- A) Sacramento River Systems
- B) San Joaquin River Systems
- C) Colorado River Systems
- D) Northwestern River Systems
- E) None of the above

The answer is C. The Colorado River is not a major contributor. Fotinakes

Lecture 10

1) A natural resource is any useful property in an area.

False. It is any useful property that is native to an area. Fotinakes

2) Which of these are natural resources of California?

- A) Seafood
- B) Water
- C) Timber
- D) Minerals
- E) All of the above

The answer is E. They are all natural resources. Fotinakes

Lecture 12

1) You are born with your culture.

False. It is learned. Fotinakes

2) A _____ is a group of people having common _____ values. A _____ is a political _____ which may control more than one culture.

- A) cultural
- B) state
- C) nation
- D) boundary

The correct order is C, A, B, D. Fotinakes

- 1.) What are the two things that make culture different?
- A. Location and traditions
 - B. Ethnicity and religion
 - C. Religion and Language
 - D. ALL of the above
 - E. None of the above

Answer: C - The two things that make Culture different are language and religion. **Chapman**

2.) If one studies a culture really well, one is able to predict what will happen next. **TRUE or FALSE**

Answer: True. Chapman

Nations and states are both pieces of land separated by political boundaries. True or False?

False, a nation is a group of people with a common culture. Boodt

The two main differences in cultures are?

- A. Religion
- B. Technology
- C. Food
