

ANSWERS TO PRACTICE PROBLEMS

I am your guide; you are responsible for your learning. Please take the time to check your answers. If you have problems please contact me for an appointment or catch me on the fly so I can help you. An appointment is the best. I will try to accommodate your needs but am working with all nursing students.

1. 14,000 mg 14,000,000 mcg
2. 1 tablet
3.
 - a. 15 mL
 - b. 3 teaspoon
4. 0800 – 1200 – 1700 – 2100
5. 0900-1700-0100
6. 2 tablets
7. grains two
8. 1000 mL, 33.33 ounces, 1 L
9. 2 tablets
10. 0.3 mL
11. 1.5 mL
12. 1 tablet
13. 2.08 mL
14. 180 L
15. 0.75 mL
16. 1.5 tablets scored
17. 5 tablets (greater than 5 round up less than 5 round down)
18. 1 mL
19. 1,200,010
20. 1 tablet
21. 0.002
22. 240 mg
23. 60ml=60cc=12t=4T
24. 220 pounds
25. 10mg=0.01 gram

The idea is for you to understand how to do the problems and not just memorize problems.

On the test: Be SMART – Read and Follow the Directions

1. Show your work.
2. I will have calculators.
3. All books, drinks, food, papers, shoes etc. are not allowed on the table
4. Your answers are correct if :
 - a. Calculation is correct – show your work (you may use any math method)
 - b. Round to nearest 10th unless otherwise stated**
 - c. All answers must have a **label**
 - d. Answer must be **circles or boxed in** (I will not guess what your answer is)
