

SAFETY GLASSES

BP 3410

~~To comply with the Education Code Sections listed below,~~ Safety glasses, deemed to be appropriate by industry standards, shall be required to be worn during activities in all courses in which the student, teacher or visitor, in a classroom situation, is engaged in or observing an activity in which the presence of hazardous substances is likely to cause injury to the eyes. The safety concerns for an activity requiring such protection shall be identified by persons charged with supervision of the activity. Such protection shall be provided by the District, at no cost.

The District may provide safety glasses for purchase, by individuals who choose to do so, at cost.

~~It shall be the responsibility of the supervisor to justify safety concerns using current industry standards.~~

***Legal Reference:** Education Code Sections 32030 through 32034.*

Adopted: April 4, 1988
