Dear Stroke Center Students,
Thank you for a spectacular first year together. When I officially joined you last summer, my dear predecessor let me know that we had funding in the Foundation for two years, thanks to generous donations. At the end of this term, thanks to you all and our families and friends in the community, we have almost doubled the funds available, which further secures our continued programs, staffing and scholarships.

The even greater gifts we have experienced this year involve the ongoing expressions of love, support, understanding and encouragement that we all share in this special place. Each day we see the smiles grow, the laughter increase, and the compassion envelop one another. A delightful example was the sharing of creative expression during our mobility exercises and accompanying sound effects of seagulls and seals as we imagined paddling in Monterey Bay the other day. What a crew!

As we finish this year, special thanks goes to our Standing Tall Advocacy Club and their generous gifts of time, talent and funds, as well as the Student Senate who voted to help support our Honors Day lunch. Special kudos in this process go to two dynamo women in our midst who are shy about being thanked publically (but you know who you are and so do we) ---Thank you---Merci---Muchas Gracias---Vielen Dank!

Finally, we approach our last days with several beloved staff who now move on to new life commitments: Diane, Barbara and Lauren. Bucket-full loads of thanks and blessings to you. We hold you in our hearts with deep appreciation.

Take care each of you, and continue in your journeys of resilience! With Love,

Cynthia
