

Accounting

The Program

The accounting program is designed to provide students with the skills and knowledge required for entry-level positions in accounting, industry, government, financial institutions and small businesses. The program encompasses classroom instruction and extensive hands-on application with both manual and computerized accounting systems. Cabrillo College offers a skills certificate in bookkeeping, in Accounting, a certificate of proficiency and an Associate of Science degree in Accounting.

Majoring in accounting can lead to a variety of career paths in many different for profit and not for profit organizations and businesses. Career paths can be generally categorized into two broad categories: public accounting and non-profit accounting.

Two-year programs in accounting will lead to positions within the transactional side operational accounting—specifically accounts payable, accounts receivable and bookkeeping. There is constant demand for this level of skill within sole proprietorships, partnerships, small to medium size corporations and non-profit organizations.

Non-public accounting includes a very diverse collection of occupations such as: corporate controller, internal auditor, cost account, tax accountant, budget accountant, IRS agent, FBI agent, homeland security, government auditor, nonprofit controller, government accountant, credit manager, and financial institution officer. Non-public accounting positions usually do not require a CPA designation; thus a bachelor's degree is adequate preparation for these jobs.

Often businesses desire accounting students for all types of non-accounting positions because of their broad business training and overall knowledge of the financial impacts of business events. The other significant opportunity with a four-year degree

in accounting is public accounting.

This includes external auditing, tax planning and return preparation, and consulting. Usually one obtains the CPA (Certified Public Accountant) designation when choosing the public accounting career path. The CPA designation requires 150 college hours, most often achieved by obtaining a Masters of Accountancy degree after getting a bachelor's degree.

Accounting Occupations

Accountant	Internal Auditor

The Profession

Accounting is the study of how businesses track their income and assets over time. Accountants engage in a wide variety of activities be-

sides preparing financial statements and recording business transactions including computing costs and efficiency gains from new technologies, participating in strategies for mergers and acquisitions, quality management, developing and using information systems to track financial performance, tax strategy, and health care benefits management.

With a two-year degree you will learn how business works. The field of accounting offers stimulating and challenging work that is constantly evolving. Because accountants spend a lot of time looking at the operational side of the businesses they really learn how business works.

It's no surprise that many successful senior operational and executive managers in business began their careers as accountants. It's also no surprise that most chief financial officers of large corporations have a background in accounting. An accountant is perfectly positioned to become a CFO, CEO (Chief Executive Officer) or COO (Chief Operations Officer) because he or she probably has the best understanding of what drives business and profits in a company.

Accounting graduates set up accounting systems that allow businesses or individuals to organize, maintain, and audit financial records. In their work, accountants may be involved in preparing tax returns, budget, financial statements, recording business transactions, advising businesses on accounting systems, or auditing financial records. Employment opportunities in accounting are plentiful, and are expected to continue to grow in the foreseeable future.

Cabrillo College

Aptos • Scotts Valley • Watsonville

6500 Soquel Drive Aptos, CA 95003 831-479-6201

How To Enroll

STEP 1 You may apply online at www.cabrillo.edu, or use the form in the Schedule of Classes. Your application can be faxed (831-479-5782), brought

in person or mailed to: Admissions and Records Office, Cabrillo College, 6500 Soquel Drive, Aptos, CA 95003.

STEP 2 You will receive registration information in the mail including your time to begin registering.
