

Distance Education

Online Courses

Distance education courses offer students an opportunity to learn and earn college credit over the World Wide Web (online courses.) Online learning offers flexible educational opportunities to students who seek alternatives to on-campus classes due to scheduling conflicts, child-care, work, or other commitments. As you contemplate whether online learning is for you, keep in mind that online courses may require more from you, in terms of motivation, discipline, and time.

Students need to have regular access to the World Wide Web for online courses and will frequently interact with instructors via a web-based course management system. Students should check their instructor's web directory page for additional information about how to access the course and whether one or more on-campus meetings are required. You may also check the *Schedule of Classes* long description for orientation information and www.cabrillo.edu/services/disted for information on how to access the course.

Online Writing Lab

The Online Writing Lab (OWL) provides tutoring in writing for all Cabrillo distance education students via e-mail. Students submit essays or other writing projects for any class, along with descriptions of their assignments, through a simple form found through the "Submit Essay" link on the OWL's Internet homepage at: www.cabrillo.edu/services/writingcenter/online/. Tutors respond with written feedback via e-mail within 48 hours.

Online Math Learning Center

The Online Math Learning Center provides online tutoring Mon-Thur 10:00 to 7:00pm, Fri 10:00 to 3:00pm and Sunday 12:00pm to 5:00pm. Students need to be enrolled in a Cabrillo Math Class and must register to use the service each semester. For information on how to register for online tutoring services go to the MLC website at www.cabrillo.edu/services/mlc and click on Online Assistance, or call the MLC at (831) 477-5696. You will need your class info and student ID number..

Pre- and Corequisites

Some distance education classes have prerequisites that must be completed prior to enrollment. Check the course description to see if you can satisfy them through previous successful coursework or through the college's placement assessment. The schedule for assessment is available at www.cabrillo.edu/services/assessment
