e-mail from Terri Eden, SJSU Articulation Officer re: Kinesiology similar major at SJSU

The BS in Kinesiology at SJSU is deemed similar to the KIN TMC and students who apply to this degree program will be given the 0.1 Admission GPA bump, and will be given a roadmap of 60 units to earn the BS in Kinesiology. You are correct the BS KIN has different emphases, however the only path which can earn this degree in 60 units is the emphasis in Individual Studies. Therefore these will be the requirements the students will be directed to complete.

Because our degrees don’t show these emphases (unlike concentrations), then all emphases in KIN are awarded the same degree: BS Kinesiology
