====General Education Requirements====

Completion of as many lower-division major-preparation courses as possible should take precedence over completion of IGETC or UCSC general education requirements. IGETC is not recommended for majors that require extensive course preparation, such as any major in the Jack Baskin School of Engineering or the Division of Physical and Biological Sciences.

Beginning Fall 2010, all new undergraduate students will be required to fulfill a new set of general education requirements approved by the UCSC Academic Senate. Upper-division (junior) transfer students who were enrolled at a previous collegiate institution prior to fall 2010 may opt to change to the new requirements or fulfill the previous general education requirements as listed in the 2009-10 agreement, provided that they transfer no later than fall 2013. Lower-division transfer students and all incoming freshman, including those with transfer credit, must follow the new general education requirements.

Community college transfer students may substitute Intersegmental General Education Transfer Curriculum (IGETC) for the UCSC GE requirements with the exception of the upper-division Disciplinary Communication (DC) requirement which must be completed at UCSC. Completion of IGETC (full or partial) must be certified by the community college. IGETC is not an option for continuing UCSC students.

Courses used in satisfaction of the requirements must be passed with a grade of C (2.0) or higher. Courses may NOT be used to satisfy more than one requirement.
