RE: Chemistry Articulation with UCSC/Cabrillo

Hello,

As we discussed over the telephone the Articulation Agreement listed on www.assist.org is out of date.

Until the agreements are updated, please consider the following as the articulation between Cabrillo and UCSC for the general chemistry series.

Chem 1A @ Cabrillo = Chem 1A, 1B/M @UCSC

Chem 1B @ Cabrillo = Chem 1C/N @ UCSC

It is preferred that students take the entire general chemistry requirement at Cabrillo before transferring to UCSC.

Chem 2 at Cabrillo no longer satisfies Chem 1A at UCSC.

I hope this helps; please let me know if you have any questions.

Sincerely,

--
