Cabrillo College Transfer Guide COLLEGE OF ARTS & SCIENCES

Thank you for your interest in Santa Clara University! This guide has been designed to help make the course-planning process easier for students who wish to transfer into the College of Arts & Sciences at SCU.

Prospective transfer students and students planning to enter SCU at the freshman level please note the following prior to using this document:

- This transfer guide represents the new core (general education) curriculum Santa Clara University implemented for its incoming freshmen class in Fall 2009. ***Students planning to transfer to Santa Clara University in Fall 2011 and later*** will need to refer to this guide only for planning purposes. Students who fall into this category please make sure not to reference older guides that outline our former core curriculum. Please find a footnote located on the bottom righthand side of this document, “Core 2009,” to differentiate this document from earlier versions of our transfer guides.
- This guide is designed for **transfer students only**. Students who plan on entering SCU as a freshman and would like to utilize this guide to help select courses that will transfer to satisfy core requirements will need to note the following: 1) students may not take courses to satisfy their Critical Thinking and Writing *or* Cultures and Ideas requirements from other schools—those requirements must be taken at Santa Clara University; 2) students can satisfy their Math, Laboratory Science, Modern Language, Diversity, Social Science, and Arts requirements at another school **PRIOR** to attending SCU. ***Please note:*** Once students have begun their academic careers at SCU, they may not take classes at another institution to satisfy core and/or major/minor requirements.
- Oftentimes schools will cross-list a single course separately under different departments. This guide will individually list cross-listed courses for each department they are found in. It is a student’s responsibility to notice whether or not a course is cross-listed as credit will only be issued one time from SCU.
- If a student takes an honors version of a course that is listed on this guide, SCU will accept that class as transferable.
- Math courses eligible for transfer to SCU to fulfill math requirements are listed on this guide. A Pre-Calculus course is eligible to receive general elective credit but will not satisfy SCU’s core math requirement.
