Another AMAZING summer with over 50 new and exciting camps!
Our camps provide a safe, fun, and engaging environment for children to explore and grow.
We offer diverse, high-quality content for developing young brains and bodies.
Join us for just a few days, or all summer long! Check out our opportunities in:

Sports & Play • Science & Engineering • Creative Culinary
Computers & Technology • Creative Arts & Design
Leadership & Personal Success

LUNCH BREAK
Monday through Friday
and open to campers ages 6 to 12
Campers have the chance to eat the healthy food their parents packed (yum!), play a board game, read their favorite book, make new friends, and play outside in a safe, supervised environment. Extension Camp Staff will escort campers to and from their camps. Please note that there will be no video games or use of hand-held electronic devices, including cell phones, during camps.

Lunch Break (Ages 6-12)
If you just need one extra hour of care from 12:00 pm to 1:00 pm, either after a morning camp, or before an afternoon camp, the fee is just $25 for one week of Lunch Break Camp. You can register online, or over the phone.

NOTE: Students need to bring their own lunch and a drink.
Mon. - Fri., 12:00 noon - 1:00 pm
Room: 1520
Fee: $25 per week*

*S Lunch Break is FREE IF... your child is registered for a morning camp that ends at noon, and an afternoon camp that begins at 1:00 pm, both during the same week. Give the Extension office a call, and we'll get you registered at no charge.

In order to ensure camper safety, online registration for Lunch Break ends on the Wednesday prior to the start date. If you want to register on the Thursday or Friday immediately preceding the start date, please call our office at 831-479-6331, and we'd be happy to get you registered over the phone.

SCHOLARSHIPS
Cabrillo Extension is happy to offer a limited number of scholarships for our youth program. Scholarships provide students and families the opportunity to enjoy our camps and classes at reduced registration fees. See page 38 for more information.

Member of the American Camp Association!
Cabrillo Extension is proud to be a member of the American Camp Association! Membership in ACA provides us with many outstanding resources for our staff and campers. The standards of the American Camp Association inform our policies, procedures, and practices. For more information on ACA, see www.acacamps.org.
Kids Can Make Dinner! (ages 9-12)
Campers learn to appreciate the love that goes into making food from scratch as they prepare meals from fresh ingredients. They become empowered to make decisions, execute them, and understand the benefit of community that eating with others intrinsically brings—hopefully for life!

During the week, campers will learn to prepare chipotle portobello tacos, summer vegetable paella, glazed balsamic-orange chicken, meatloaf and veggie loaf with bbq glaze, Greek turkey burgers with raia in pita and delicious sides and desserts too! Vegetarian options for each recipe will be available. At the end of the week, each camper will have the skills to plan, prepare, present and serve a delicious meal for the whole family—and then enjoy it!

Chocolate Creations Camp (ages 9-12)
Campers discover a world beyond brownies and chocolate chip cookies as we learn to prepare sweet and savory chocolate dishes. Our menu will include fondue, dipped strawberries, buttercream, mousse, ice cream, slow cooker mole wings, and barbecue sauce—yum! We’ll begin with an overview and tasting of different kinds of chocolate, and cover the history and the production of chocolate in its various forms. We’ll learn the best uses for each type, and the tips and tricks to avoid pitfalls when working with chocolate. This is a week of being really messy, and really chocolatey, while learning recipes, techniques, and inspiration to go beyond the brownie!

Mon. - Fri., July 6-10
1:00 - 4:00 pm
Room: 908
Register before May 28: $225
Register after May 28: $240
Plus a $45 material fee paid at registration

Making, Baking, Cake! (ages 9-12)
Everyone loves cake! No matter your favorite - pancakes, shortcake, upside down cake, cupcakes, molten lava cake, angel food cake, or bundt cake - you can become the best baker in your brood! Chef Mima literally grew up in a French bakery and she will guide campers through a delicious week of decorating, whipping, folding, and sifting. Campers will learn to understand terms, read baking recipes, how leavening works, why we mix dry ingredients separately, and other cake baking basics. At the end of the week we will compare our cakes—the good, the bad, and the ugly—and discuss outcomes and reasons behind them. Campers will take home a sampling of confections each day.

Mon. - Fri., July 27-31
9:00 am - 12:00 noon
Room: 908
Register before May 28: $225
Register after May 28: $240
Plus a $45 material fee paid at registration

Roll It, Wrap It, Stuff It (ages 9-12)
Snacks are known by many names: antipasti, hors d’oeuvres, appetizers, and dim sum. What kid doesn’t like snacks? They’re great for parties, picnics, barbecues, school lunches, and meals with the whole family! Students learn how to make dips, breakfast bites, delectable morsels, and delicious finger foods that are kid friendly. With recipes, tips, and tricks, young campers will soon be eagerly preparing their own snacks and meals! Menu items for the week will include crostini, scones, hummus, guacamole, sliders, pizza poppers, pigs in a blanket, cucumber barquettes, baked zucchini bites, fruit smoothies, filled wonton cups, peach-pumpkin squares, finger sandwiches, and even granola clusters—oh my!

Mon. - Fri., June 22-26
1:00 - 4:00 pm
Room: 908
Register before May 28: $225
Register after May 28: $240
Plus a $45 material fee paid at registration

Budding Chef Cooking Camp (ages 9-12)
Gain skills to use simple ingredients to make delicious meals for yourself, your friends and your family. This camp will borrow from the classic French kitchen brigade system in order to simplify workflow and make kitchen directives concise and understandable. In addition to learning kitchen safety, food hygiene, cooking techniques, and kitchen etiquette, we will be creating an environment that emphasizes inclusive, mutual respect, and teamwork as we work in small groups to prepare and cook meals.

During the week we will make grilled chicken with chimichurri, mashed potatoes, mac and cheese, root veggies al dente, broccoli cheddar quiche, lemon bars, chocolate brownies, homemade pasta with creamy roast tomato sauce, garlic bread, sauteed veggies with rice, lemon-ricotta pancakes, and the list goes on! We invite parents, grandparents, siblings and friends to come and join us on the last day of camp for a wonderful feast created entirely by your Budding Chefs.

Budding Chefs are required to wear comfortable, closed-toe shoes, long pants, short sleeve shirts, and bring clean to-go containers roughly 4”–8” with a sealed lid, as there will be lots of leftovers to take home each day - yum! Budding Chefs will take home a cookbook with information about kitchen safety, preparation techniques, and the recipes from the week, so they can keep cooking at home!

Register Early! Each camp is limited to 16 students.

FIVE SESSIONS TO CHOOSE FROM:

Session 1:
Mon. – Fri., June 15–19
9:00 am – 12:00 noon
Room: 908
Register before May 28: $225
Register after May 28: $240
Plus a $45 material fee paid at registration

Session 2:
Mon. – Fri., June 15–19
1:00 – 4:00 pm
Room: 908
Register before May 28: $225
Register after May 28: $240
Plus a $45 material fee paid at registration

Session 3:
Mon. – Fri., June 29–July 3
9:00 am – 12:00 noon
Room: 908
Register before May 28: $225
Register after May 28: $240
Plus a $45 material fee paid at registration

Session 4:
Mon. – Fri., July 13–17
9:00 am – 12:00 noon
Room: 908
Register before May 28: $225
Register after May 28: $240
Plus a $45 material fee paid at registration

Session 5:
Mon. – Fri., August 3–7
9:00 am – 12:00 noon
Room: 908
Register before May 28: $225
Register after May 28: $240
Plus a $45 material fee paid at registration

ALL CAMPS ARE LOCATED IN ROOM: 908

Students will learn kitchen safety, food hygiene, cooking techniques, and etiquette. We create an inclusive environment that emphasizes mutual respect, patience, and teamwork. We begin each day discussing ingredients and the techniques being covered that day, followed by plenty of demonstrations, and finally into the kitchen!

Campers are required to wear comfortable, closed-toed shoes, long pants, short sleeve shirts, and bring clean to-go containers roughly 4”–8” with a sealed lid, as there will be leftovers to take home each day! Campers will take home a cookbook with information about food and kitchen safety, food preparation techniques, and the recipes from the week, so they can keep cooking at home!
CREATIVE CULINARY

Doughlicious Baking Camp (ages 12-15)
If you love to bake then come spend a week making sweet and savory treats with Chef Anne in Cabrillo’s Culinary Arts Kitchen and Bake Shop. Immerse yourself in the wonderful world of baking as you learn to make biscuits, muffins, strawberry jam, plum crisp, cookies, ice cream, and sweet and savory French pies. Each day we will focus on mastering a skill, and learn to bake delicious goodies to take home to your friends and families. Campers work on teamwork, problem solving, time management, kitchen and food safety, and develop their culinary skills. Careers in the baking and pastry arts are also discussed.

Please wear long pants, closed-toe shoes, an apron and a hat.

Mon.–Fri., June 8-12 OR July 13-17
Room: 908
Register before May 28: $245
Register after May 28: $260
Plus a $40 material fee at registration

Anne Baldzikowski is an award-winning instructor in the Cabrillo College Culinary Arts Department. She has owned two wholesale bakeries, authored a cookbook, and brings a wealth of knowledge and enthusiasm to her camps.

Creative Cooking: Advanced (ages 12-16)
This camp is designed for young chefs who have completed Creative Cooking camp or have comparable, above average kitchen skills. Although a basic understanding of cooking skills are essential to succeed in this camp, the most important traits a student can contribute to the group to ensure their success are maturity, focus, and a calm demeanor. The smaller class size ensures the ultimate hands-on cooking experience and plenty of one-on-one time. It is also very important that young chefs love food and are willing to try new flavors, and eat plenty of vegetables!

Young chefs are required to wear comfortable, closed-toe shoes, long pants, short sleeve shirts, and bring clean-to-go containers roughly 4”-8” with a sealed lid, as there will be lots of leftovers to take home each day — yum! We invite parents, grandparents, siblings and friends to come and join us on the last day of camp for a wonderful feast created entirely by the Young Chefs.

Students do not need to have completed Doughlicious to enroll in this camp, but some baking experience is helpful.

Please wear long pants, closed-toe shoes, an apron and a hat.

Mon.–Fri., July 20-24 OR August 3-7
Room: 908
Register before May 28: $245
Register after May 28: $260
Plus a $40 material fee at registration
Anne Baldzikowski - see bio

Sean Adams has a lifelong passion for food, community and local produce. He is currently the teen instructor at Teen Kitchen Project, inspiring the next generation of chefs and foodies.

Creative Cooking (ages 11-14)
This camp will borrow from the classic French kitchen brigade system in order to simplify workflow and make kitchen directives concise and understandable. In addition to learning kitchen safety, food hygiene, cooking techniques and kitchen etiquette, we will be creating an environment that emphasizes inclusive, mutual respect, and teamwork as we work in small groups to prepare and cook meals. This structure helps everyone know what station they are working in, how to set it up, and includes a list of responsibilities that go along with their particular station.

We will prepare handmade ravioli and sauces, fried rice with veggies, chicken and veggie pot pie, vegetable frittata, taco party with all the fixings, chocolate mouse with cinnamon whipped cream, strawberry turnovers, lemon custard, and so much more! We invite parents, grandparents, siblings and friends to come and join us on the last day of camp for a wonderful feast created entirely by the Young Chefs.

Young chefs are required to wear comfortable, closed-toe shoes, long pants, short sleeve shirts, and bring clean-to-go containers roughly 4”-8” with a sealed lid, as there will be lots of leftovers to take home each day — yum! We invite parents, grandparents, siblings and friends to come and join us on the last day of camp for a wonderful feast created entirely by the Young Chefs.

Creative Cooking: Advanced (ages 12-16)
This camp is designed for young chefs who have completed Creative Cooking camp or have comparable, above average kitchen skills. Although a basic understanding of cooking skills are essential to succeed in this camp, the most important traits a student can contribute to the group to ensure their success are maturity, focus, and a calm demeanor. In addition to learning kitchen safety, food hygiene, cooking techniques, and kitchen etiquette, we will be creating an environment that emphasizes inclusive, mutual respect and teamwork as we work in small groups to prepare and cook meals.

We will learn to make lemon-garlic brined pork chops, corn and black bean tamales, chicken or spinach enchiladas, avocado and crab causas (a Peruvian potato dish), ceviche tostada with lemon aioli, handmade tortellini with a spicy herbal pesto, alfredo sauce, summer heirloom tomato and cheese empanadas, focaccia bread with caramelized onions and green olives, Argentine empanadas, strawberry galettes, grilled peaches with homemade vanilla ice cream and balsamic vinegar, and the list goes on and on! We invite parents, grandparents, siblings and friends to come and join us on the last day of camp for a wonderful feast created entirely by the students.

Young chefs are required to wear comfortable, closed-toe shoes, long pants, short sleeve shirts, and bring clean-to-go containers roughly 4”-8” with a sealed lid, as there will be lots of leftovers to take home each day — yum!

Register Early! This camp is limited to just 12 students.

Mon.–Fri., July 6-10
Room: Sesnon House
Register before May 28: $280
Register after May 28: $295
Plus a $55 material fee paid at registration

Sean Adams has a lifelong passion for food, community and local produce. He is currently the teen instructor at Teen Kitchen Project, inspiring the next generation of chefs and foodies.

Foodie Field Trips (ages 12-15)
This camp is all about exploring the amazing food that we have at our doorstep! We live in one of the most abundant food growing regions in the world, and have full access to a wide variety of organic produce and specialty food producers. In this week-long camp we will head out to visit some unique, local food artisans to see what they are doing that is so special, and how they are making their mark on our culinary community. After each field trip, we will return to the kitchen to bake, make, cook, and taste the amazing ingredients we have gathered that day. On our field trip days, Monday - Thursday, we will be going to:

• Sweet Earth Foods, a plant-based natural foods company based in Moss Landing, for a tour of their facility.
• Mutari Craft Chocolate House for a tour of their bean-to-bar chocolate factory.
• Santa Cruz Downtown Farmers Market to meet local organic produce vendors and buy produce.
• Gitzdich Ranch, a 4th generation, family owned and operated, agricultural business in Watsonville, to explore the farm and pick berries.

Some of the dishes we will make include plant based burgers and fries, berry pies, handmade ice cream, chocolate desserts, spinach and cheese enchiladas, carrot cake with fresh ginger whipped cream, strawberry turnovers, veggie pot pie, and so much more! We invite all parents and family members to come and join us on Friday as we will be preparing a meal for everyone to share!

Young foodies are required to wear comfortable, closed-toe shoes, long pants, short sleeve shirts, and bring clean-to-go containers roughly 4”-8” with a sealed lid, as there will be lots of leftovers to take home each day — yum!

Register Early! Camp is limited to just 10 students.

Mon. - Fri., July 27-31
1:00 - 5:00 pm
Location: Ohlsen Foods
Register before May 28: $295
Register after May 28: $320
Plus a $60 material fee paid at registration

Sean Adams has a lifelong passion for food, community and local produce. He is currently the teen instructor at Teen Kitchen Project, inspiring the next generation of chefs and foodies.
LEADERSHIP & PERSONAL SUCCESS

Ready, Set, Read! (ages 6-10)
Young Authors Write a Mystery!
For Students Entering Grades 1-4 in the Fall of 2020

Make up stories, create and illustrate your characters, then publish your own book—what a great way to start your summer!
This camp supports the continued development of reading & writing skills, reading comprehension, and English Language arts skills. Campers write and publish their own “mystery story book,” including their “author’s statement,” and create their own cover art and illustrations. We will combine creative writing, mixed media art, group discussions, reader’s theater, and fun, educational technology-based games to build their reading, writing, and spelling skills.
Readers of all levels will enjoy an age appropriate collection of books in a soft, supportive environment designed to encourage their lifelong love of literature.

No testing, and no pressure, just a safe space to learn, play, and be creative to foster a love of reading, and build confidence!
Register Early! These camps are limited to only 12 students.

For students entering grades 3 & 4
Mon. - Fri., June 22-26
9:00 am - 12:00 noon
Room: 1603
Register before May 28: $225
Register after May 28: $240
Plus a $25 materials fee paid at registration

For students entering grades 1 & 2
Mon. - Fri., June 29 - July 3
1:00 - 4:00 pm
Room: 1603
Register before May 28: $225
Register after May 28: $240
Plus a $25 materials fee paid at registration

Lori Kearney, MA, currently works at Main Street Elementary School providing reading intervention, English language development, and technology support to students in K-5th grade.

LEADERSHIP & PERSONAL SUCCESS

Accelerated Learning Techniques for Students (ages 12–15)
This interactive and entertaining funshop will give students the tools and insights necessary to learn faster and have fun while doing it. Whether they are a straight-A student or barely passing, this funshop will teach kids how to do better in less time! Students will walk away with resources and techniques that they can use immediately to unlock the amazing potential of their brain and start achieving more than they ever thought possible. In this funshop students will:
• Participate in interactive and engaging activities designed to get them moving while also learning
• Discover and understand their specific learning style - what works for them and what makes the process of learning more fun and effective
• Learn practical memory techniques so they retain more of what they learn
• Develop a personal “learning toolkit” to master any subject

In today’s rapidly changing technological society, knowing how to learn is one of the most valuable skills we can have. Unfortunately, most of us were never actually taught how to learn. Because of this, learning feels like an unpleasant chore for many students, rather than a fun and exciting adventure. Well, no more! Learning is fun, especially when you know how to do it quickly and efficiently. Accelerated Learning Techniques for Students will help your child release their inner genius and become the student they were always meant to be!

Thu. & Fri., August 6 & 7
1:00 – 4:00 pm
Room: 825
Register before May 28: $78
Register after May 28: $85
Plus $10 materials fee paid at registration

Dr. Joe McCullough is the Physics Program Chair at Cabrillo College where he has been teaching for the last 18 years. He is also a certified trainer.

LEADERSHIP & PERSONAL SUCCESS

SAT Test Prep (ages 14-18)
Reduce the stress and anxiety associated with the high-stakes college entrance SAT test by taking a few days at the end of the summer to prepare! This workshop will cover all sections of the SAT test including:
• All SAT study guide course materials
• Extensive training sessions and practice tests for each section of the SAT exam
• Specific strategies for different types of questions
• General test-taking strategies
• Complete explanation of each question and answer on institute practice tests
• Error analysis to identify strengths and weaknesses

Wed. – Fri., July 29-31 OR August 5-7
1:00 - 5:00 pm
Room: 513
Register before May 28: $225
Register after May 28: $240
Plus $40 materials fee paid at registration

Jennifer Mount has over 15 years of experience in the design and facilitation of professional and leadership development curriculum. She has worked with Fortune 500 Companies such as Microsoft, 3M, and Amgen as well as start ups, non-profits, and small businesses.

Youth Leadership Academy: Cultivating You & Your Community—Leadership Skills for Personal Success (Grades 7-10)
The concept of leadership is changing. It is a journey to create habits for personal success, including collaboration, emotional intelligence, and creativity. This academy is designed to help emerging leaders develop their personal compass, learn how to create their map, and help them identify their destination.

Through exercises, games, social and interpersonal group activities, writing, art projects, and a lot of fun, we will dive into ideas about the physical, emotional, mental, and aspirational well being it takes to be a conscious leader.
We will discuss the 4 most important characteristics of leaders; Inspiring, Forward Looking, Honest, and Competent. As we learn ways to enact these characteristics, we will focus on these five exemplary practices to achieve personal success:
• Model the Way
• Inspire a Shared Vision
• Challenge the Process
• Enable Others to Act
• Encourage the Heart

Families are invited to join us in the last hour of our final day for a closing ceremony. Each student will receive a certificate of completion and we will share a video about the campers’ experience during the academy.
Students will come away with a personal success action plan that they are excited about, and want to see come to fruition.
A guide for parents and students will include talking points, prompts for conversations, and activities for use between sessions to deepen and enrich student experience.

Students will be asked to take risks, get active, be thoughtful, and generally be open and engaged. Please bring plenty of snacks and water!
2 Mon., 2 Wed. & 2 Fri., July 6 -17
10:00 am - 1:00 pm
Room: 1522
Register before May 28: $345
Register after May 28: $370

To register, visit us online at www.cabrillo.edu/youth or call (831) 479-6331
**Code Explorers (ages 6-8)**
For curious young minds who want to take the first steps into the world of programming! Student explorers will use their creativity to solve a series of web-based coding challenges. Each lesson builds fluency in essential digital skills needed for the future. At the end of the week, students will receive access to the interactive learning platform to continue their coding journey at home.

Students will work in pairs or teams for most of the program.

- Mon. – Fri., June 22-26
- 9:00 am - 12:00 noon
- Room: 2502
- Register before May 28: $235
- Register after May 28: $250
- Plus a $15 materials fee at registration

---

**Rocket Kart Racers: Design a Mario Kart® Style Game (ages 9-12)**
On your mark, get set, create! Blast off in making your first 3D Mario Kart® and Crash Team Racing® style game! Design your own tracks and customize your karts and characters. Using a professional 3D game development software, students will combine their creations into their own kart racing game that they can play with friends and family at home.

Students may participate in eSports League races against other schools across the country, with a chance to have their tracks featured in the Black Rocket master build of the game! Student projects will be available on a password protected website to share with friends and family. Students will work in pairs or teams for most of the program.

- Mon. – Fri., June 8-12
- 9:00 am -12:00 noon
- Room: 2502
- Register before May 28: $235
- Register after May 28: $250

---

**2D Game Labs with GameMaker (ages 9-12)**
Learn the basics of game design in this one-of-a-kind class that shows the keys to designing your first 2D platformer game using GameMaker, an industry-grade software. Conceptualization, play experience, level design, graphics, sounds, and simple coding are just some of the concepts that we’ll explore. No prior experience necessary! Just come with your ideas and a desire to have fun!

Student created games will be available on a password protected website to share with friends and family.

- Ages 9-12
- Mon. – Fri., June 22-26
- 9:00 am - 12:00 noon
- Room: 2502
- Register before May 28: $235
- Register after May 28: $250

---

**Virtual Reality: The Future is Now (ages 9-12 & 13-15)**
Embark on an EPIC adventure in virtual reality! In this cutting edge class, you will learn the foundations of VR design by creating your own virtual worlds, exploring simulated environments, and crafting memorable 3D experiences. At the end of the week, take home your first cardboard VR headset to show friends and family the new worlds you created.

VR projects can be viewed on a website or a mobile device. Students do not need a mobile device to take the class, but to use the VR headset after class students need access to an Android or Apple mobile device.

Students will work in pairs or teams and VR projects will be available on a password protected website to share with friends and family.

- Ages 13-15
- Mon. – Fri., June 22-26
- 9:00 am - 12:00 noon
- Room: 2502
- Register before May 28: $235
- Register after May 28: $250
- Plus a $30 materials fee at registration for an Augmented Reality Cube.

---

**Adventures in Augmented Reality! (ages 9-12 & 13-15)**
Watch as holograms come to life in the first-ever augmented reality camp for kids! Students will work in cutting-edge software to create holographic scenes that are viewable with a smartphone and a magic futuristic cube. Get hands-on with your own digital creations in this one of a kind experience!

Student-created projects will be available on a password protected website to share with friends and family.

Students will work in pairs or teams for most of the program.

- Ages 13-15
- Mon. – Fri., June 29 - July 3
- 9:00 am - 12:00 noon
- Room: 2502
- Ages 9-12
- Mon. – Fri., June 29 - July 3
- 1:00 - 4:00 pm
- Room: 2502
- Register before May 28: $235
- Register after May 28: $250
- Plus a $30 materials fee at registration for an Augmented Reality Cube.

“My son can now code!!”
- Parent of a Virtual Reality camper

---

**3D Game Labs with Unity (ages 13-15)**
Are you an aspiring game designer, ready to take your skills to the next level? Using Unity, an industry-grade design software, students will learn level editing, 3D modeling, impactful gameplay creation, as well as how to utilize scripts and variables.

Student created games will be available on a password protected website to share with friends and family. Students will work in pairs of teams for most of the program.

- Mon. – Fri., June 15-19
- 1:00 - 4:00 pm
- Room: 2502
- Register before May 28: $235
- Register after May 28: $250
JavaScript Developer Jam (ages 9-12 & 13-15)
Learn programming tools so powerful they seem like magic! Start off by learning an array of core programming concepts with JavaScript by experimenting in a series of digital challenges. Start with programming your first animated memes, then tackle more advanced skills such as interactive 3D experiences and game creation. Student-created games will be available on a password protected website to share with friends and family. Students will work in pairs or teams for most of the program.

Ages 9-12
Mon. – Fri., July 6-10
9:00 am - 12:00 noon
Room: 2502

Ages 13-15
Mon. – Fri., July 6-10
1:00 – 4:00 pm
Room: 2502
Register before May 28: $235
Register after May 28: $250
Plus a $15 materials fee at registration

Python Programmers (ages 9-12 & 13-15)
Want to learn the world’s fastest growing programming language, favored by Google, NASA, YouTube, and the CIA? Learn how to code with Python to create engaging apps and games. Each lesson takes you step-by-step on a programming path that will let you challenge friends with fun content you create from start to finish! Student-created games will be available on a password protected website to share with friends and family. Students will work in pairs or teams for most of the week. Returning students can create more advanced projects that build on previous years.

Ages 9-12
Mon. – Fri., July 13-17
9:00 am - 12:00 noon
Room: 2502
Ages 13-15
Mon. – Fri., July 13-17
1:00 – 4:00 pm
Room: 2502
Register before May 28: $235
Register after May 28: $250
Plus a $15 materials fee at registration

Inventor’s League: Prototyping for the Future! (ages 9-12)
Become an inventor of the future! Learn rapid prototyping and problem solving as you conceptualize and design a product to solve a critical global issue. Each day begins with inspirational profiles of young inventors, such as the eleven year old who coded a robot to find victims of natural disasters. Next, research a problem to tackle in medicine, architecture, the environment, or a topic of your choosing. Once your vision is complete, learn how to draft 2D designs, create 3D models, and develop a website to pitch your ideas to the class.

Mon. – Fri., July 20-24
1:00 – 4:00 pm
Room: 2502
Register before May 28: $235
Register after May 28: $250

Video Game Animation (ages 9-12)
Take your game design skills in GameMaker, an industry-grade software, to the next level by creating and animating your own character sprites, objects, and backgrounds. Start with a name, develop the character’s personality, signature moves, special powers, and a storyline. Finish with a fully animated character to be used in your very own game. Students do not need any prior experience in game design, animation, or sketching.

Student-created games will be available on a password protected website to share with friends and family. Games are only compatible on PC computers; Mac versions can be created after the program. Students must own a Java version of Minecraft to build structures to the next level!

Ages 9-12
Mon. – Fri., July 20-24
9:00 am - 12:00 noon
Room: VAPA 2021
Register before May 28: $235
Register after May 28: $250
Plus a $15 materials fee paid at registration

Make Your Own Movies! Storytelling Through Digital Media (ages 9-12 & 13-15)
Kids love to read stories and watch movies, but they also love to invent their own characters, tell their own stories, and make their own movies! This camp opens the door for students to use their imagination to develop colorful characters, create unique stories, and make their own movie magic using digital production tools! They will learn basic set design, story development, lighting, sound, and editing.

Using Stop Motion Studio, a movie making app, students will make a stop motion video using characters they love. We will explore creating original music with GarageBand, creating spooky graphics with Adobe Spark, and learning to edit short videos with iMovie. Spend a week making movie magic and go home with skills to continue your digital media storytelling!

Ages 9-12
Mon. - Fri., July 27-31
9:00 am – 12:00 noon
Room: VAPA 2021
Register before May 28: $235
Register after May 28: $250
Plus a $15 materials fee paid at registration

OR
Ages 13-15
Mon. - Fri., July 27-31
1:30 – 4:30 pm
Room: VAPA 2021
Register before May 28: $235
Register after May 28: $250
Plus a $15 materials fee paid at registration

Minecraft® Redstone Engineers (ages 9-12)
Take the next step beyond simply “playing” Minecraft and become a true Redstone engineer. Expand your Redstone knowledge by constructing your own carnival with a variety of mini-games, roller coasters, and attractions powered by Redstone. Learn how to use Command and Structure blocks to incorporate them into your builds. Activate your skills and take your Minecraft structures to the next level!

Students must own a Java version of Minecraft to access their projects at home. Tablet, phone, and game console versions of Minecraft are not compatible. Students will work in pairs or teams for most of the program.

Mon. – Fri., July 27-31
1:00 – 4:00 pm
Room: 2502
Register before May 28: $235
Register after May 28: $250

To register, visit us online at www.cabrillo.edu/youth or call (831) 479-6331
Little Chemists (ages 6-8)

Put on your goggles and get hands-on in this introduction to chemistry camp! Zoom in on atoms and molecules to understand the building blocks of everything around you! Learn about pH, and turn a cabbage into a magical, color changing potion. Discover how colors are made through the science of chromatography. Get bubbly, fizzy, and messy with a variety of safe chemical reactions. Each day is full of hands-on experiments designed just for the budding scientist!

Mon. – Fri., June 15-19
9:00 am – 12:00 noon
Room: 1605
Register before May 28: $225
Register after May 28: $240
Plus a $30 material fee paid at registration

Little Paleontologists (ages 6-8)

Discover the ancient world and the creatures who lived in it: the ferocious Tyrannosaurus rex, the massive shark Megalodon, the soaring pterosaurs, and many, many more. Step into the shoes of a paleontologist as we learn about the most impressive creatures to ever live on planet Earth, and how we know what we know about them.

Throughout the week, learn about the science of paleontology through hands-on activities developed by our resident dinosaur scientist. From plate tectonics and rebuilding ancient worlds, to identifying and excavating fossils, each of the activities are based on the latest science and uses the same techniques and tools as scientists in the fields of geology and paleontology.

Students will take home an excavated fossil and other projects created throughout the week to continue their paleontological adventures!

Mon. – Fri., June 15-19
9:00 am – 12:00 noon
Room: 1605
Register before May 28: $225
Register after May 28: $240
Plus a $30 materials fee paid at registration

Robotics using LEGO® WeDo (ages 6-8)

Build and program robots in this introductory Robotics class using the LEGO® WeDo® system. Learn basic programming skills, simple engineering concepts, and the names of robot components. Work in small groups to complete several projects using tilt and motion sensors. This is a great way to prepare young Robotics enthusiasts for our more advanced Robotics programs.

Mon. – Fri., July 6-10
9:00 am – 12:00 noon
Room: 1521
Register before May 28: $225
Register after May 28: $240

Pokémon Engineering using LEGO® Materials (ages 6-8)

Join Ash and Pikachu as you build, capture, train, and explore the vast world of Pokémon with tens of thousands of LEGO® parts. Design your own Poké Balls, explore the Kanto region, and fly with Charizard. Explore engineering through the fun world of Pokémon!

Mon. – Fri., June 22-26
9:00 am – 12:00 noon
Room: 1521
Register before May 28: $225
Register after May 28: $240

Super Hero Engineering with LEGO® Materials (ages 6-8)

Save the world with LEGO® Super Heroes! Enter the Phantom Zone, travel on Wonder Woman’s Invisible Jet, and face off against Galactus. Create motorized and architectural projects with imagination and engineering to bring your super powers to life.

Mon. – Fri., June 29-July 3
9:00 am – 12:00 noon
Room: 1521
Register before May 28: $225
Register after May 28: $240

Jedi Starship Engineering using LEGO® Materials (ages 6-8)

Win the Millennium Falcon from Lando and maneuver through the Kessel run, challenge the First Order in your Resistance Bomber, and collect bounties in Boba Fett’s ship. Using tens of thousands of LEGO® parts, learn about STEM concepts as you design and fly various starships through the vast Star Wars universe.

Mon. – Fri., July 20-24
9:00 am - 12:00 noon
Room: 1521
Register before May 28: $225
Register after May 28: $240

To register, visit us online at www.cabrillo.edu/youth or call (831) 479-6331
You’ll begin by learning how a simple circuit powers light bulbs, cars, phones, and so much more! Electricity powers so many things around us: our light bulbs, cars, phones, and so much more! It’s Electric! It’s Electric!

register before May 28: $225
Register after May 28: $240
Plus a $30 material fee paid at registration

Fun with Flight
(ages 6-8)
Our world today is filled with flying machines: simple kites, helicopters, airplanes, and the rockets and shuttles that travel into space! In this hands-on exploration of flight, campers will learn how things become airborne. Experiment with the differences between wings in nature, and how they inspired our modern machines. Explore different kinds of vehicles that carry people through the air, and invent your own ideas! Each day is sure to help the imagination take flight!

register before May 28: $225
Register after May 28: $240
Plus a $30 material fee paid at registration

Little Detectives
(ages 6-8)
Test your CSI skills as you crack the case! In this hands-on, interactive camp, students will discover scientific reasoning and processes as they take on the role of Little Detectives. Examine clothing and soil, study tracks, take your own fingerprints, and find the stolen items! Students will be working together as part of a team, just like real-life police and forensic scientists. Put on your thinking cap, and help solve the mystery!

At the end of the week, students will take home their forensic lab journal and other tools to continue their investigating at home.

register before May 28: $225
Register after May 28: $240
Plus a $30 material fee paid at registration

Little Astronomers
(ages 6-8)
Space is often called the “final frontier” and has captured the imaginations of many! Whether it’s storytellers who drew pictures in the stars, or scientists and engineers dreaming of exploring beyond our world. Now, it can be your turn! Whether you want to become an astronaut, study the stars, drive a rover on another planet, or are just curious about the night sky, this is the camp for you!

In this exploration of space and planetary science, you’ll measure the solar system, create your own star chart, make a mini rocket, design a mission to another planet, and much, much more! Each day will include interactive, hands-on activities developed by NASA and other planetary scientists that will broaden your view of space, and your place in it.

Students will take home projects they create over the course of the week, to continue their astronomy adventures well after camp has ended.

register before May 28: $225
Register after May 28: $240
Plus a $30 material fee paid at registration

Little Archaeologists
(ages 6-8)
What can we learn about the people that lived thousands of years ago from the items they left behind, like arrowheads, pottery, and pyramids? Take an adventure through time and around the globe in this hands-on archeology adventure! What will you leave behind for future generations to find? Find out how much your trash says about how you live. Reconstruct an ancient artifact. Discover how ancient cultures were different from - and similar to - people today. Be ready to get your hands dirty, as each day will be full of experiments and adventures!

Campers will take home projects created throughout the week, and the skills to find the history hidden all around them!

Mon. – Fri., July 13-17
1:00 – 4:00 pm
Room: 1605

register before May 28: $225
Register after May 28: $240
Plus a $30 material fee paid at registration

Gross-ology: Ooey Gooey You
(ages 6-8 & 9-12)
Did you know you’ve got more than 5 senses? Or that you make a new batch of snot every 20 minutes to keep dirt and germs out of your body? What about that your intestines, unfolded, are the same length as two cars? The science of the human body is often gross, but always fascinating. Come learn about all the systems that make you, you!

Each day, you’ll step into the role of biologists, pathologists, and doctors to investigate what makes your body work. Test your senses, make “booger” slime, extract fruit DNA, discover why washing your hands is important, and so much more in this interactive, hands-on camp!

Students will take home lab experiments and projects created during the week, to continue their life science explorations once the camp has concluded.

Ages 6-8
Mon. – Fri., July 6-10
1:00 – 4:00 pm
Room: 1605
Register before May 28: $225
Register after May 28: $240
Plus a $30 material fee paid at registration

Ages 9-12
July 6-10
9:00 am – 12:00 noon
Room: 1605
Register before May 28: $225
Register after May 28: $240
Plus a $30 material fee paid at registration

To register, visit us online at www.cabrillo.edu/youth or call (831) 479-6331
**Constructor Creators: The Engineering Challenge** *(ages 9-12)*

Put on your hard hat for a week of engineering exploration! Each day we’ll introduce a new branch of engineering, such as electrical, mechanical, or environmental. Campers will then be presented a challenge, just like one acting engineers are tasked with solving. Working with a team of their peers and the materials provided, campers will design, build, and test their solution to the problem. Along the way, they’ll learn the tools and skills that help engineers build the world around us. Be sure to bring your imagination!

- **Register before May 28**: $225
- **Register after May 28**: $240
- Plus a $30 material fee paid at registration

**Mon. – Fri., June 15-19**
1:00 – 4:00 pm
Room: 1521

**Adventures in Archeology** *(ages 9-12)*

Long after a civilization disappears, the things they leave behind remain. Learn how scientists use these “left-overs” to reconstruct the ancient world! Each day will take you to a different part of the world to explore how people lived in that time and place. Try your hand at ancient writing and art, learn what your trash bin might tell future archeologists about your life, and piece together artifacts just like a practicing archeologist!

Campers will go home with projects completed throughout the week, and the skills to find the history hidden all around them.

- **Register before May 28**: $225
- **Register after May 28**: $240
- Plus a $30 material fee paid at registration

**Mon. – Fri., June 22-26**
9:00 am – 12:00 noon
Room: 1605

**Rock Stars** *(ages 9-12)*

Earthquakes, tsunamis, volcanoes, oh my! While the earth looks rock-solid, there’s a lot going on beneath our feet. In this hands-on geology exploration, we will complete experiments and investigations every day. Learn to identify different kinds of rocks, and where you might find them. Discover what causes earthquakes and tsunamis, and how new science is helping to predict these amazing events. We’ll build and erupt our own mode volcanoes. By the end of the week, you’ll have a whole new understanding of the stories hidden in the geology around us.

- **Register before May 28**: $225
- **Register after May 28**: $240
- Plus a $30 material fee paid at registration

**Mon. – Fri., July 13-17**
9:00 am – 12:00 noon
Room: 1605

**Who Dunnit? Crime Scene Investigators** *(ages 9-12)*

The game is afoot! Throughout this hands-on week of camp, you’ll step into the role of a forensic scientist. You’ll explore many of the tools used by the professionals, including fingerprint analysis, chromatography, synthetic blood typing, and more! Work as part of a team, just like the police, detectives, and forensic scientists that all collaborate to solve real-life mysteries. So grab your magnifying glass and join a team of young detectives to crack the case!

At the end of the week, you’ll take home your lab notebook and other tools to continue investigating at home.

- **Register before May 28**: $225
- **Register after May 28**: $240
- Plus a $30 material fee paid at registration

**Mon. – Fri., July 27-31**
1:00 – 4:00 pm
Room: 1603

**Little Medical School** *(ages 6-8 & 9-12)*

Discover the fascinating science of the human body through hands-on activities, games, and role playing. Campers will learn medical and STEM concepts in playful, science based themes such as: The wonderful brain; Your spine is fine; All about the heart; Bones; What’s in the doctor’s bag… and so many more! Campers will find out why mucus and boogers are important, and make and take home homemade snot. They will learn about first aid, muscle groups, organs, how lungs work, how the eye reacts to light, and what a prescription is. Whether your little one imagines they are a future healthcare provider, or they’re just a science lover, this camp will keep them engaged and excited.

After a lesson about how x-rays are taken, Little vets will take a tour of Cabrillo’s Radiologic Technology Program lab, and meet college students pursuing health care careers. Our camp week will conclude with a graduation ceremony, reciting of the Little Medical School Oath, and go home with their diploma and a working stethoscope!

- **Register before May 28**: $225
- **Register after May 28**: $240
- Plus a $28 material fee paid at registration

**Ages 6-8**
**Mon. – Fri., July 13-17**
9:00 am – 12:00 noon
Room: HW2212, at the Cabrillo College Health and Wellness Building

**Ages 9-12**
**Mon. – Fri., July 20-24**
1:00 – 4:00 pm
Room: HW2212, at the Cabrillo College Health and Wellness Building

**Little Veterinary School** *(ages 6-8 & 9-12)*

Explore the exciting world of veterinarians and “The ABCs of Dog and Cat Care” through interactive demonstrations, hands-on activities, and games. Learn how much water pets need to stay healthy, what to do when a dog gets hurt, how immunizations protect pets, and some basics about dog body language. Little vets will learn to take measurements and assessments on a dog, and how to make dog treats at home! After a lesson about x-rays, Little vets will take a tour of Cabrillo’s Radiologic Technology Program lab, and meet college students pursuing health care careers. One of our camp days will include a Humane Education presentation by the Santa Cruz County Animal Shelter to discuss understanding, respect, and empathy for all animals. Kids will learn how they can become animal advocates, and ways to safely, and appropriately meet a new dog in public— including a visit from Stanley, a large, lovable chocolate lab!

Our camp week will conclude with a graduation ceremony, and campers go home with their diploma, their stuffed dog with adoption certificate, recipe cards & a dog bone cookie cutter, as well as their Little Veterinarian white coat and tool kit!

- **Register before May 28**: $225
- **Register after May 28**: $240
- Plus a $28 material fee paid at registration

**Ages 6-8**
**Mon. – Fri., July 20-24**
9:00 am – 12:00 noon
Room: HW2212, at the Cabrillo College Health and Wellness Building

**Ages 9-12**
**Mon. – Fri., July 20-24**
1:00 – 4:00 pm
Room: HW2212, at the Cabrillo College Health and Wellness Building

Little Medical School inspires young minds by sharing our passion for learning, health and careers in medicine. All programs are written by experienced educators, board-certified physicians and trained healthcare professionals. Camps are led by a trained Little Medical School® Instructor.

**To register, visit us online at www.cabrillo.edu/youth or call (831) 479-6331**
Pokémon Master Engineering using LEGO® Materials (ages 9-12)
Start your training in Pallet Town and expand your Pokédex as you collect your favorite Pokémon with LEGO® materials. Surf with Blastoise, challenge Team Rocket, and earn badges from gym leaders on your way to the Pokémon League. Design and build as never before and explore your wildest ideas while learning about STEM concepts.

- Mon. – Fri., June 22-26
  1:00 - 4:00 pm
  Room: 1521
- Register before May 28: $225
- Register after May 28: $240

Robotics using LEGO® EV3 (ages 9-12)
Build and program robots using the new LEGO® Mindstorms EV3 system! Learn about mechanical and software design, loops, conditional statements, problem solving, and teamwork skills. Work in small groups, program and build your robot, and rise to the challenge! Control the robot to avoid obstacles, pick up and carry objects, and play sounds. Projects are structured so that students work in an open-ended, investigative environment while having fun.

- Mon. – Fri., July 6-10
  1:00 - 4:00 pm
  Room: 1521
- Register before May 28: $225
- Register after May 28: $240

Junkyard Challenge with LEGO® Materials (ages 9-12)
Use our massive LEGO® “junkyard” and apply real world STEM concepts to design innovative solutions for our custom challenges. Launch a container over shark infested waters, rescue an explorer stranded in the mountains, and design a car that drives upside down. Our instructors help engineer unique design solutions into fun filled activities.

- Mon. – Fri., June 29-July 3
  1:00 - 4:00 pm
  Room: 1521
- Register before May 28: $225
- Register after May 28: $240

Harry Potter Master Engineering (ages 9–12)
Master the magic of Harry Potter using LEGO®! Visit Diagon Alley, play a game of Quidditch, and duel the evil Lord Voldemort. Hone your magical skills while learning about advanced Muggle concepts (Science, Technology, Engineering, and Math).

- Mon. – Fri., July 20–24
  1:00 - 4:00 pm
  Room: 1521
- Register before May 28: $225
- Register after May 28: $240

Oceans and Robotics, Science and Technology Camp (SSROV) Level 1 (ages 9-12)
Ever wonder what lies on the seafloor? This Level I week-long STEM camp is designed for rising 3-5th graders. Dive into the world of marine science, technology, and operations with the Seafloor Science and Remotely Operated Vehicle (SS ROV) camp. This hands-on camp makes learning fun as campers discover the scientific method, seafloor biology and geology, engineering practices, and technologies for deep-sea exploration. Interactive activities include rovers, underwater ROVs, sensors, plankton, sonars, scientific drilling, deep-sea biology, and more. As an ocean explorer, campers will engage in teamwork activities that develop leadership skills, cultivate creative solutions to technical problems, and appreciate a range of career possibilities while discovering our unique underwater world.

- Mon. – Fri., June 15-19
  9:00 am – 12:00 noon
  Room: 1606
- Register before May 28: $235
- Register after May 28: $250

Oceans and Robotics, Science and Technology Camp (SSROV) Level 2 (ages 12-15)
Ever wonder what lies on the seafloor? Our Level 2 week-long, all day STEM camp is designed for rising 6-9th graders. Dive into the world of marine science, technology, and operations with the Seafloor Science and Remotely Operated Vehicle (SS ROV) camp. This hands-on camp makes learning fun as campers discover the scientific method, seafloor biology and geology, engineering practices, and technologies and operations for deep-sea exploration. Interactive activities include autonomous rovers, underwater ROVs, sensors, plankton, sonars, seafloor biology and geology, and more. As an ocean explorer, campers will engage in teamwork activities that develop leadership skills, cultivate creative solutions to technical problems, and appreciate a range of career possibilities while discovering our unique underwater world.

Please bring a lunch, plenty of snacks, and water.

- Mon. – Fri., July 20-24
  8:30 am – 4:30 pm
  Room: 1606
- Register before May 28: $445
- Register after May 28: $475

Geoff Wheat, Ph.D. in Oceanography, is a Research Professor at the University of Alaska, Fairbanks and Adjunct Scientist at MBARI (Monterey Bay Aquarium Research Institute). He has been on over 78 ocean expeditions of which 49 include a submersible or ROV component.

To register, visit us online at www.cabrillo.edu/youth or call (831) 479-6331

Room: 1606
Mon. - Fri., June 22-26
9:00 am – 12:00 noon
Room: 1606
Register before May 28: $235
Register after May 28: $250
Oceans and Water (ages 4–6)
Right in our backyard, the Monterey Bay is one of the most precious scientific sites on the planet! Little scientists will take their first look at the creatures and habitats that hide beneath the waves. From the spiny sea urchin to the playful sea otter to the magnificent humpback whale, campers will learn about their underwater neighbors, and how they live in their ocean homes. Each day will include interactive games and experiments to keep little explorers learning all camp long!

Register Early! Camp is limited to just 12 students.
Mon. – Fri., June 22-26
9:30 – 11:30 am
Room: 2100B
Register before May 28: $195
Register after May 28: $210
Plus a $30 material fee paid at registration
Nancy Galloway - see bio

If this is your child’s first time in a classroom setting, we know it can be both exciting and scary! Our small instructor-to-child ratio ensures that they’ll receive the support they need in a fun and safe environment. Parents are welcome to stay for as long, or as little as they like, as their child eases into their day. Our camps offer a great opportunity to help transition your child into an educational setting with our experienced instructors!

Science Explorers: Forests and Nature (ages 4–6)
Santa Cruz County is one of the few places on Earth with the magnificent redwood forest! These giants hide many amazing critters and secrets in their shade. Little scientists will start to peel back these secrets of the forest in their backyards. From the slimy banana slug to mysterious mushrooms to the wise and wonderful owl, campers will learn about their forest neighbors, and how they live in their redwood homes. Each day will include interactive games and experiments to keep little explorers learning all camp long!

Register Early! Camp is limited to just 12 students.
Mon. – Fri., July 27-31
9:30 – 11:30 am
Room: 2100B
Register before May 28: $195
Register after May 28: $210
Plus a $30 material fee paid at registration

Science Explorers: Mix It Up Mixed Media (ages 6–8)
Little artists will experiment with a new medium, new tools, and a new theme each day in a creative, expressive, and safe environment! We’ll explore drawing, painting, collage, printmaking, and soft, brightly colored oil pastels, and will experiment with a wide array of tools and techniques. With a new theme each day, little artists will create unique, colorful artwork with images that include their favorite animals, imaginary characters, and science topics. We’ll introduce a wide array of projects as we experiment with solar prints, watercolor paper quilts, animal & self portraits, templates, and patterns. Each day we’ll have story time to focus on artists and concepts, and hands-on games that connect to our themes. Young artists will take home their finished masterpieces each day, and lots of new ideas to continue creating at home!

Materials fee includes a little artists kit!
Mon. – Fri., July 6-10
9:00 am - 12:00 noon
Room: 2100B

Baskin Girls in Engineering (entering 6th - 8th Grades)
The Cabrillo College Baskin Girls in Engineering summer program is designed for young women entering 6th - 8th grades who want to learn more about the role engineering plays in their lives. Students will engage in hands-on, team-based engineering design projects where they will apply their creativity in designing engineering solutions. This program is aimed at nurturing their natural curiosity, building their confidence, and fostering their interest in engineering as a fun, exciting, and rewarding career. In addition, the young women will experience engineering in action during a guided tour of a local engineering company.

Families are invited to the end-of-program celebration on Friday at 1:00 pm where the girls present what they have learned and experienced in the camp.

These camps fill up quickly so register early!
The Baskin Girls in Engineering program is run by Cabrillo's Engineering Department.

Two camp sessions to choose from:
Mon. – Fri., July 27-31 OR August 3-7
9:00 am – 3:00 pm
9:00 am – 3:00 pm
Room: 810 Room: 810
Register before May 28: $320
Register after May 28: $340
Plus $25 materials fee paid at registration
Roxanne Morris-Vaughan, BA in Mechanical Engineering, has been the instructor of this Girls in Engineering program since its creation in 2012. She has also been a teacher, tutor, and coach for over 20 years. She believes in inspiring the next generation of women in engineering through teamwork, creativity, and exciting hands-on projects.

Mix It Up Mixed Media (ages 6–8)

Small Metal Jewelry (ages 10-17)

Immersed in the magical world of creating handmade jewelry, students will work with master goldsmith, Lynette Cederquist, in her cozy creek-side studio in Apts. Each student will learn basic jewelry fabrication and small metal skills, and the small class size allows for plenty of individualized instruction, and ample practice time. These fun, skills-based camps are an excellent foundation for future work, giving students the opportunity to implement their own designs using a variety of high quality tools and materials.

Students will create pieces that reflect their personal style, and design ideas as they learn hand-fabrication techniques such as filing, polishing, sawing, and torch use. They will use jeweler’s brass, copper sheet, copper wire, and sterling & argentium silver. Students will go home with an understanding of basic jewelry making skills, knowledge of studio safety practices, and their beautiful projects. Depending on their pace, and their designs, students have time to make up to 10 finished pieces of jewelry!

Please note that students must have their hair tied back securely, wear long pants, and wear closed-toe shoes in the studio at all times.

Register Early! Each camp is limited to just 10 students.

Ages 10-12
Mon. – Fri., June 22-26
9:00 am – 12:00 noon

Ages 15-17
Mon. – Fri., June 22-26
1:00 – 4:00 pm

Ages 13-15
Mon. – Fri., July 6-10
9:00 am – 12:00 noon

Register before May 28: $235
Register after May 28: $250
Plus a $68 material fee at registration

Monica Galvan is a teaching artist with SPECTRA and Mariposa’s Art, and has a BA in Art Practice. Creating art has always been a part of Ms. Galvan’s life, and she began showing her work professionally in 2011.

Mixed Media Layered Painting (ages 10-14)

Let loose and experiment as you work with mixed media to create vibrant, textured, and unique pieces of art! Learn new techniques as you explore texture, sponging, pattern making, stenciling, glazing, photo transfers, and embedded objects. We will experiment with acrylic paints, gesso, Modge Podge, paint pens, Sharpies, charcoal, and pastels as we create layers.

Our process will allow the freedom to create without judgment, and we’ll walk away with several finished mixed media pieces on canvas.

For the final phase of layering where we include found objects and images, you can bring in small objects (under 2.5 inches wide) and printed images to include in your artwork, or you may select from a wide array of options provided in class. Please wear clothes that can get messy!

Mon. – Fri., June 15-19
1:00 – 4:00 pm
Room: 1520
Register before May 28: $210
Register after May 28: $225
Plus a $30 material fee paid at registration

One of the best-equipped, private teaching studios in the state. Students will work at their own professional jewelry bench with professional jewelry tools.

ALL CAMPS LOCATED AT:
Lynette Cederquist Studio
9057 Soquel Drive, Building A, Suite A

Lynette Cederquist has been a jeweler for over 20 years. She has a Bench Jeweler certification from the Jewelers of America, a National JA Certification, and is a graduate of the Revere Academy of Jewelry Arts. She holds a CA Life Teaching Credential for grades K-9 and was a classroom teacher for 15 years. She is a 5th generation goldsmith and loves corgis!

Science + Art = Nature Journals! (ages 10-14)

Do you love to draw? Are you fascinated by the natural world around you? Join a professional scientific illustrator to create your own journal, documenting and illustrating the natural world. It’s amazing how much scientific and visual information is on a bird’s wing, a flower petal, or a lizard’s back. Students will learn to develop and hone observational drawing skills to document these beautiful and important details. We’ll learn illustration techniques using graphite, colored pencil, and watercolor to record observations in our journals. Students will work from specimens and photographs, and go into the field to observe, illustrate, and journal about the natural world around us. Student will record written and illustrated notes about birds, plants, insects, reptiles, and amphibians. Each day will focus on a different group of organisms, and students will learn field drawing and sketching techniques.

Students will leave with newfound drawing techniques, skills to improve their observations, and journals ready to fill with observations of the natural world around them!

Mon. - Fri., June 29 - July 3
9:00 am - 12:00 noon
Room: 1520
Register before May 28: $210
Register after May 28: $225
Plus a $35 material fee paid at registration

Megan Gnekow, BS, is a Scientific Illustrator with a Graduate Certificate in Scientific Illustration. She was the 2018 Elkhorn Slough Artist in Residence, won the 2019 Laura Hecox Naturalist Award, and is a volunteer at Pinnacles National Park.

Little Naturalists: Art, Science, and Exploration! (ages 6-12)

Explore, interpret, and create! Little Naturalists will discover the natural phenomena happening right before their eyes as they create art using natural materials, conservation biology, and the basics of being a field scientist. Campers will learn to use binoculars, identify habitats and species, and gain a deeper understanding of the natural world. They will create nature journals, use natural and found objects as their art supplies to create dyes, solar prints, make bird feeders, and turn objects in the wild into art forms. Each hands-on project lets campers combine their newfound science knowledge, arts techniques, and their own imagination.

Campers will develop a deeper appreciation for the natural world, and go home with their projects, new skills, and inspiration to create more!

Sculptastic! 3D Character Creation (ages 6-8)

In this new camp, campers will create 3-dimensional sculptures of a favorite character from a book, movie, or a character from their imagination! Over the course of the week we will learn how to use polymer clay, papier mache, plaster, gouze, paint, wire, cardboard, and other repurposed and found materials. We’ll begin by helping campers envision, in detail, the 3D version of their character. We will stretch and explore different ways to create that character using a wide variety of tools, techniques, and materials, and have plenty of time for creative experimentation! Campers will learn ways to visually express their character’s personality, as they learn multiple 3D mixed-media sculpture techniques. They will go home with their amazing new character sculpture, and the skills to create many more at home!

Emily Jingst, BFA/MS is an artist and art teacher at Gateway School. Emily attended Pratt Institute completing her BFA/MS in Art and Design Education.
**Samurai Chess Camps (ages 6-16)**

Whether it’s creativity, competitiveness, a sense of belonging to something bigger than you, or just plain fun, chess means something different for different kids. No matter the motivation, learning and playing chess has been shown to improve memory and problem solving, develop patience, the ability to concentrate—and it’s really fun!

In these camps young chess players will learn the strategy, tactics, and various techniques. They will also learn to notate their games, use a chess clock, and become familiar with basic principles and patterns of play. Each camp includes group instruction, solving chess puzzles, review of historical games, group play, and a group review of the games for support and feedback.

**Introduction to Chess (ages 6-8)**

Every child loves playing games and chess is no exception! In fact, most children can pick up the basics of chess by the time they are five or six years old. This camp is designed for very young campers with little or no experience with chess. Come explore, experiment, and learn the basics of how to play!

Register after May 28: $240

**Beginning Chess Players (ages 8-12)**

This camp focuses on fundamental techniques and formulating plans, as well as a game variant, ‘Escalation Chess,’ that offers an enhanced version of chess, creating a special kind of universe in which students can use classical chess ideas, themes and principles, with an altered set of foundational rules. The game variants we will learn and play are ‘Bug house,’ ‘Knight mare’ (imagine ‘Magic’ cards combined with regular chess!) and ‘Fischer Random’ Chess (‘normal’ opening preparations are thrown out the window replaced by a new order of ideas).

Students should have an understanding of the game’s general rules, names, abilities and trading value for pieces, and knowledge of basic chess terms such as: check, checkmate, stalemate, rank, file, diagonal, opening, middle game and end game.

**Make Your Own Movies! Storytelling Through Digital Media (ages 9-12 & 13-15)**

Kids love to read stories and watch movies, but they also love to invent their own characters, tell their own stories, and make their own movies! This camp opens the door for students to use their imagination to develop colorful characters, create unique stories, and make their own movie magic using digital production tools! They will learn basic set design, story development, lighting, sound, and editing.

Using Stop Motion Studio, a movie making app, students will make a stop motion video using characters they love. We will explore creating original music with GarageBand, creating spiffy graphics with Adobe Spark, and learning to edit short videos with IMovie. Spend a week making movie magic and go home with skills to continue your digital media storytelling!

**Game Labs: Build Your Own Board Game (ages 6-8 & 9-12)**

In 1974, Dungeons and Dragons started a phenomenon that is stronger than ever. There are now dozens of different rulesets, thousands of different scenarios, and infinite ways to tell a story together with your friends! Begin the week by learning the basic rules of Dungeons and Dragons, 5th edition, as you explore your first world. We’ll delve into world-building, character creation, story pacing, team problem solving, math and science concepts, and so much more as you collaboratively write a scenario to take home and play with friends and family. By Friday, you’ll not only know how to play: you’ll be the Dungeon Master!

Kids will end the week with the outline of their custom 2-3 hour scenario, a set of dice, character sheet templates, and their hand-crafted Dungeon Master screen - everything they need to start their own D&D game at home!

**Game Labs: Intro to Dungeons & Dragons (ages 9-12)**

We live in a golden age of board games: it’s not just Monopoly anymore! Get involved with this blossoming community by playing some of the latest, greatest board games as case studies: what makes them great? Then use what you learn as you work with a camp-mate and create a game together from the ground up. Pick a theme, create your game board and pieces, and customize the rules. By the end of the week, playtest another group’s game, and get feedback on your own, to continue designing and creating at home!

Creative Visual Design: Graphic Design and Illustration (ages 14-17)

Do you love surf and skate graphics, garment graphics, or posters? Do you love to design and illustrate, or to edit photos? Then this camp is for you! Through a series of fun and fast-paced exercises, students will explore photo editing, learn tools and techniques to manipulate type, and experiment with digital illustration. Students will translate their creative and visual design ideas into digital art with Adobe Photoshop and Adobe Illustrator, and use Wacom Intuos 4 digital drawing tablets to see how professional designers illustrate. Students will use DSLR cameras to take portraits, which they will edit. This is a fun introduction for students interested in learning more about graphic design. Take your creative design ideas from concept to reality in this hands-on, activity based camp!

Some DSLR cameras are available for students to share, or they may bring their own to class.

Marco Lucadano is the ROP Graphic Design and Digital Photography instructor, Assistant Technology Coordinator at Soquel High, and a Technical Support Specialist with the Santa Cruz County Office of Education.

“
My child learned new skills, and got personal/supportive attention from the instructor. Marco is terrific.”

-Parents of Creative Visual Design Camp with Marco Lucadano

Digital Photography II: Creativity in the Digital Darkroom (ages 12-15)

Learn the basics of processing your digital photography and advanced image editing with Adobe Photoshop to take your digital photographs to the next level. Short walks around campus will focus on gathering image elements for a final project done with compositing techniques in Photoshop. Students learn how to color correct, process, edit, dodge/burn, make selections and cut-outs, as well as how to apply special effects to enhance an image and more. Learn how and where to print your photographs on canvas, metal and more.

DSLR camera recommended, though cell-phone cameras are fine. Basic processing of photographs from camera to the digital darkroom will also be covered.

Bring a USB flash drive to store and take home edited images (1GB or larger).

Mon. – Fri., June 15-19
1:00 – 4:00 pm
Room: VAPA 2021
Register before May 28: $235
Register after May 28: $250
Plus a $10 material fee at registration

Lights, Camera, Action: Filmmaker Bootcamp (ages 13-17)

Are you an aspiring filmmaker or story teller? Do you want to learn more about the technical and creative process of filmmaking? This intensive 5-day camp takes students through the entire filmmaking process from script to screen. The week will begin as groups of campers form small “Production Companies,” and select script outlines to guide their time in camp. Over the course of the week they will have the opportunity to step into the various roles necessary to produce a film, such as directors, actors, editors, and technicians. We will discuss the role that filmmaking plays in our culture as a storytelling platform, and how film festivals, YouTube, and other platforms offer opportunities for independent filmmakers to share their ideas. Through presentations and hands-on practice, each group will acquire filmmaking literacy in regards to the filmmaking process as well as cinematic principles and techniques.

Each production company team will go through the same process as a professional film studio. Films begin in pre-production, as campers draft storyboards and break down everything they’ll need to bring their vision into reality. They’ll explore blocking, prepare gear and lighting, and produce basic sets and props. All the preparation and creativity will shine with principal photography and filming, before returning to the lab to make a roughcut, record foley (everyday sound effects), add special effects, titles, and credits, and finally get the film to the point where the team can say, “That’s a wrap!”

The week will culminate in a Friday evening film festival, including the world premiere of camper-created short films. Families and friends are invited!

All of the required equipment, including cameras, lighting, and software will be provided during the week. Software used for editing is an open-source program that is available to download for free, so that students can continue making films with their newfound skills.

Young Filmmakers should bring their lunch, snacks, and plenty to drink every day, as we will be very active during this camp! Also campers should dress comfortably and wear good walking shoes.

Mon. - Fri., July 6-10
9:00 am - 5:00 pm
Room: 316
Register before May 28: $395
Register after May 28: $450

Kirk Demorest received his B.A. in Film Studies at the Art Center College of Design. He is a film industry professional who has worked at Disney Studios and Universal Studios. Some of his students from his afterschool video classes have gone on to be professional filmmakers!

Gary Rollinson, JD has directed and produced 10 short films, a music video, and written over 25 screenplays (of which 6 are feature length scripts). He draws on his many life experiences—whitewater rafting guide, jazz musician and singer, private pilot, mountain biker, disk jockey, competitive golfer, attorney and law professor and international IT educator.

Santa Cruz Film Festival supports and promotes film arts for the local community and for filmmakers and their audiences world-wide. They are a proud supporter of Lights, Camera, Action: Filmmaker Bootcamp.
CREATIVE ARTS

Cabrillo Youth Chorus Voice Camp (ages 7-18)
Love to sing? Love theater and musicals? Then the Cabrillo Youth Chorus Voice Camp is the place for you!
Spending a week singing great choral music from around the world! Explore music theory, dance, movement, and rhythm! At the end of the week, join everybody on stage for our own musical production with lots of solo singing and speaking roles! Past productions include Heartland, Songs of America; Not my Circus, Not my Monkey; and Harry Potter and the Circle of Fifths! Have fun with Crazy Hair Day, Come as Your Favorite Superhero Day, and everybody’s favorite, Gutter Sundae Day!
Make music with kids from dozens of area schools and see if the Cabrillo Youth Chorus is right for you when CYC starts up in the fall! Come meet new friends and find a whole new passion!
Our camp director, Cheryl Anderson, is joined by a cadre of teaching assistants who are majoring in music or have graduated as music majors from Cabrillo College. Our high staff-to-camper ratio ensures that each camper gets individual attention and instruction throughout the week.
Students provide their own lunch. Each camper is also required to purchase a Cabrillo Youth Chorus polo shirt for $20, unless your camper already has one.

Mon. - Fri., August 3-7
9:00 am - 3:00 pm
Room: VAPA 5148
Register before May 28: $235
Register after May 28: $250

Cheryl Anderson is the Director of the Cabrillo Youth Chorus as well as the Director of Choral Activities. She is an active member of the American Choral Directors Association and the National Association for Music Educators.

Kuumbwa Summer Jazz Camp (grades 8-12)
For over 25 years Kuumbwa’s Summer Jazz Camp has been a destination for dedicated young musicians to learn about the thrilling creativity and limitless possibility of Jazz! Over nine days of study, listening, and collaboration, this camp covers jazz improvisation, and jazz appreciation, and will help students grow as musicians. Students will receive one-on-one and group instruction by professional music educators using innovative teaching techniques in the state-of-the-art Cabrillo Performing Arts complex.
The camp focuses on live performance, basic improvisation, theory, soloing concepts and phrases, along with jazz history and appreciation. In addition, each day students from both grade-level groups come together for an hour of cookies, and collaborative, guided musical experience.
We conclude the camp on the final Thursday with a student performance on the famous Kuumbwa Jazz Center stage.
All students are required to know at least 3 major scales and have experience with their instrument. It is preferred, but not necessary, that students know their circle of fifths. In addition, guitarists and pianists must have the ability to read standard chord symbols and preferably know their triads. Drummers must know standard jazz rhythms.

In order to participate students must complete the following survey immediately after registration: https://goo.gl/forms/pFwXmZeCTEKRxqbc2
Information about musicianship and skill level that students provide in this survey is essential, and will trigger the distribution of additional information that is sent to campers relative to their instrument.
Please check the Class Resources web page for important information about what campers must bring on the first day, a link to the required survey, and the final day performance schedule.

Mon. - Fri., June 15–19 and Mon. –Thu., June 22-25
9:00 am - 12:00 pm (ages 8 & 9)
11:00 am – 2:00 pm (ages 10 - 12)
Room: VAPA 5156
Register before May 28: $345
Register after May 28: $370
To learn more about Kuumbwa’s music education programs go to www.kuumbwajazz.org/education

Introduction to Guitar (ages 11-17)
No experience necessary for this beginning guitar camp! The week starts with an introduction to melody, chords, and learning notes on the guitar strings. Over the course of the week, students sing and perform traditional as well as popular songs. Learn to play as a soloist, and also how to communicate with other musicians. Learn to read music in guitar tablature and standard notation while also exploring rhythm and ear training.
This is a great environment to comfortably play melodies, begin to strum songs you enjoy, and gain an appreciation for music and the guitar.

Mon. - Fri., July 13–17
1:00 - 4:00 pm
Room: VAPA 5137
Register before May 28: $210
Register after May 28: $225
Plus $5 materials fee paid at registration

Jerad Fox has over 20 years of musical experience. He received his B.A. in Music & Guitar Performance from the Musicians Institute and currently teaches for the Arts Council of Santa Cruz County.

Intermediate Guitar (ages 11-17)
Mastered guitar basics and ready for the next level camp? This camp focuses on learning the most common chords used in contemporary music as well as an introduction to scales, modes, improvisation, and finger-style guitar. Discover common song forms like blues, pop, and jazz by playing together as a group. We will study rhythm guitar charts as well as reading single note lines and melodies. Music theory and ear training is explained and explored in a way that makes sense to young guitarists.

Mon. - Fri., July 20–24
1:00 – 4:00 pm
Room: VAPA 5137
Register before May 28: $210
Register after May 28: $225
Plus $5 materials fee paid at registration

Kiki Barrett is a local designer and sewing instructor with a passion for helping others get past the fear and frustration of sewing. She has shown ready-to-wear collections locally and enjoys helping others grow as a designer and/or seamstress.

Rebekah Jones has a degree in Business and works in education, but she fell in love with sewing, embroidery, and fiber arts 10 years ago, and hasn’t stopped since! She has taught embroidery, crochet and sewing, and loves sharing her passion with fellow stitchers!

Sewing, Making, Creating: Textile Design Lab (ages 13-16)
Design, sew, embroider, and create beautiful practical items as you learn your creativity flow while developing your design skills! We will work our way through custom designed projects that include a stuffed creature or soft sculpture, a tote bag made from old jeans, and embroidery to add personality, color, and other unique design elements to your projects. There will be some simple patterns in class for students to use, lots of fabric to experiment with, embroidery floss, needles & hoops, Bernina sewing machines, large cutting tables, ironing boards, irons, basic sewing supplies, and a playlist that students build each day to groove to as they sew and make! We will address construction and design strategies, cover basic sewing skills, and explore our own creative visions by mixing textiles, trims, embroidery, and buttons to make our projects. The pace and vibe of this camp allows plenty of time for individual projects, problem solving, experimentation, and creativity!
Students will go home with their finished projects, embroidery needles and hoops, and new skills for designing and creating their own pieces at home!

Mon. - Fri., July 20-24
1:00 - 4:00 pm
Room: 1520
Register before May 28: $210
Register after May 28: $225
Plus $32 materials fee paid at registration

CREATIVE ARTS
**Baseball Camps (ages 7-14)**

This is the 19th year of our summer baseball camp. Our camp is designed to address all of the areas for a great experience: skills, on-one instruction, game play and great fun. We ensure that all of our campers leave with a sound knowledge and skill level. At no time will any camper be in an environment either beneath or above their skill level. It is of the utmost importance that we provide a safe and meaningful experience.

Please bring a hat, mitt, sport appropriate attire and a lunch daily.

**FIVE SESSIONS TO CHOOSE FROM!**

| Session 1: Mon.–Fri., June 8-12 | Session 2: Mon.–Fri., June 15-19 | Session 3: Mon.–Fri., July 6-10 |
| Session 4: Mon.–Fri., July 20-24 | Session 5: Mon.–Fri., July 27-31 |

- **Baseball Field**
- **Fee:** $225 each session

---

**Summer Soccer Camps (ages 4-14)**

Cabrillo College Athletics invites you to come have fun, learn some new skills from top-level instructors, and enjoy the game of soccer!

Our camp offers a comprehensive, informative week of instruction that will focus on individual and team skills needed to be successful in this wonderful game. Camp is staffed by the men's and women's coaching staff of Cabrillo College—professional, nationally licensed coaches and former professional players who are attuned to the needs of all ages and abilities.

Camps are Monday-Friday and held on the grass track field at Cabrillo College.

| Boys & Girls (ages 7–14) | 9:00 am - 12:00 noon |
| Fee: $195 each session |

**Wee-Hawks (ages 4–6)**

- 9:00 - 10:30 am (will train separately from older kids)
- **Fee:** $95 each session

---

**Basketball Camps**

**Basketball Skills Camps (ages 7–17)**

Our camp provides a tremendous environment for your child's skill improvement. The skills camp offers a solid foundation of offensive and defensive fundamentals for all age groups and skill levels. We provide positive feedback, instruction, motivation, and techniques to help develop your son or daughter as a complete basketball player.

Our staff, consisting of Cabrillo College Men's Basketball Team members, works with each player on proper shooting, ball handling, passing, rebounding and footwork techniques. Our emphasis on sound fundamentals immerses each camper in the sport, giving them the kind of focused, intensive training that is essential for improvement. Over the course of the camp you will see drastic improvement in your child's self-confidence, sport specific skills, and overall love for the game.

There will be a certified athletic trainer, plenty of water, and rest breaks.

Bring shorts, athletic shoes and your love for the game. Lunch, drinks and snacks will be available for purchase.

**Location:** Gymnasium

**Fee:** $200 each session

**FOUR SESSIONS TO CHOOSE FROM:**

- Session 1: Mon.–Fri., June 8–12
  - 8:00 am - 12:00 noon (Early bird drop off at 7:30 am, late pick-up at 12:30 pm)
- Session 2: Mon.–Fri., June 15–19
  - 8:00 am - 12:00 noon (Early bird drop off at 7:30 am, late pick-up at 12:30 pm)
- Session 3: Mon.–Fri., July 6–10
  - 8:00 am - 12:00 noon (Early bird drop off at 7:30 am, late pick-up at 12:30 pm)
- Session 4: Mon.–Fri., July 20–24
  - 8:00 am - 12:00 noon (Early bird drop off at 7:30 am, late pick-up at 12:30 pm)

**Basketball Shooting Camps (ages 7–17)**

Our shooting camps are a great opportunity for your child to focus on a particular skill and the development of that skill: SHOOTING. The entire camp will be devoted to improving the shooting technique and ability of each player. Proper fundamentals and footwork will be coached to help maximize development and experience.

Each camper is coached by members of the Cabrillo College Men's Basketball Team and staff. Each day will consist of individual and group instruction, drill work, shooting competitions and position specific workouts. Throughout the camp you will learn a number of take home drills that will help you continue to improve upon your shooting long after the camp has ended.

There will be a certified athletic trainer, plenty of water, and rest breaks.

Bring shorts, athletic shoes and your love for the game. Lunch, drinks and snacks will be available for purchase.

**Location:** Gymnasium

**Fee:** $200 each session

**FOUR SESSIONS TO CHOOSE FROM:**

- Session 1: Mon.–Fri., June 8–12
  - 8:00 am - 12:00 noon (Early bird drop off at 7:30 am, late pick-up at 12:30 pm)
- Session 2: Mon.–Fri., June 15–19
  - 8:00 am - 12:00 noon (Early bird drop off at 7:30 am, late pick-up at 12:30 pm)
- Session 3: Mon.–Fri., July 6–10
  - 8:00 am - 12:00 noon (Early bird drop off at 7:30 am, late pick-up at 12:30 pm)
- Session 4: Mon.–Fri., July 20–24
  - 8:00 am - 12:00 noon (Early bird drop off at 7:30 am, late pick-up at 12:30 pm)
Cabrillo Volleyball Camps (ages 11-18)
Our camps are run by Kelsee Montagna, the Cabrillo Women’s Volleyball Head Coach, her assistant coaches and players. They provide technical training in a fun environment for all levels to learn the game, and also for more experienced players to improve and refine their technical skills. Players will be placed in skill/age level groups where Coach Montagna and the Cabrillo Women’s Volleyball team will provide drills and games that are appropriate for that skill.

Please wear comfortable clothes for indoor volleyball: t-shirt, sweatshirt, tennis shoes, kneepads, and bring a water bottle and lunch or snacks.

Kids All Skills Volleyball Camp (ages 7-11)
NEW! Our All-Skills Kids Camp is an all-skills camp for young players. This camp focuses on all the fundamental skills (passing, setting, serving, hitting), terminology and structure of the game. Let’s have some fun!

All skill levels welcome.

Mon. – Fri., June 15–19
1:00 – 4:00 pm
Gymnasium
Fee: $150

High School Volleyball Camps (ages 13-18)
Our High School camps are skill/position specific camps for 9th–12th graders, where the majority of time will be spent on the skill sets within a specific position. All skills are welcome!

Our Passer & Defense Camp will focus on all aspects of passing and defensive techniques, including footwork and reading defensive plays.

Our Hitters/Setter Camp is for players that want to improve their hitting techniques and will focus on all aspects of hitting, including footwork, arm swing and timing with the setter. Setters will focus on tempo sets and vision for running an offense.

Passer & Defense Camp
Mon. – Fri., July 20-24
1:00 – 4:00 pm
Gymnasium
Fee: $150

Hitters & Setter Camp
Mon. – Fri., July 27-31
1:00 – 4:00 pm
Gymnasium
Fee: $150

Junior High All Skills Volleyball Camp (ages 11-13)
Our Junior High Camp is an all-skills camp for 7th-9th grade players. This camp focuses on all the fundamental skills of volleyball: passing, setting, hitting and digging over two days and then introduces more game-like play on the final day.

All skill levels welcome.
Mon. – Thu., June 29 - July 2
1:00 – 4:00 pm
Gymnasium
Fee: $125

Advanced Camp: All Skills (ages 13-18)
NEW! Another new camp for 2020 summer is the All Skills Advanced Volleyball Camp. This camp was designed for high school athletes to brush up and enhance their skills before High School tryouts during dead week. Players will be split by positions during the first hour and a half of the sessions then brought together for game-like play.

Mon. – Fri., August 3-7
1:00 – 4:00 pm
Gymnasium
Fee: $100

FOR MORE INFORMATION ABOUT SPORTS CAMPS PLEASE CONTACT:

All Sports Camp: Mark Ramsey at (831) 479-6389 or mramsey@cabrillo.edu
Baseball: Bob Kittle at (831) 234-9824 or rokittle@cabrillo.edu
Basketball: James Page at (831) 479-5024 or japage@cabrillo.edu
Football: Aidan Campion at (408) 891-2354 or aicampio@cabrillo.edu
Volleyball: Kelsee Montagna at (831) 479-6486 or kemontag@cabrillo.edu

Soccer: Paolo Carbone at (831) 479-6402 or pacarbon@cabrillo.edu
Soccer: Gladys Mondragon at (831) 479-6593 or glmondra@cabrillo.edu
Softball: Kristy Rosinger at (831) 477-3555 or krballin@cabrillo.edu
Tennis: David Van Ness at davanness@cabrillo.edu
Water Polo: Josh Thomas at (831) 479-6149 or jothomas@cabrillo.edu

All Sports Camps (ages 8-14)
The Cabrillo College Athletic Department ALL SPORTS CAMPS will provide a fun and dynamic week playing a variety of sports and games with Cabrillo College coaches and student athletes. Activities will include, but not be limited to, wiffle ball, kickball, volleyball, flag football, soccer, basketball and more!

Coaches will provide leadership and guidance on how to be successful in sports and in life. We are excited to have student-athletes of both genders working with us to ensure appropriate supervision and coaching of all campers. We look forward to working with your child and providing a safe environment that promotes fun competition, movement, health and wellness.

Camper need to wear active clothing and bring shoes to run and play. They should also bring a swimsuit (or wear their swimsuit to camp), sunscreen, a hat and towels daily, as we will finish with free play in the beautiful Cabrillo College Pool! Men’s and women’s locker rooms will be available for campers to change.

Snacks and water are provided daily, however, campers are asked to bring a lunch each day except Friday, when we will have a Pizza Party to finish off the week!

All skill levels welcome.

Session 1:
Mon. - Fri., June 22–26
1:00 - 5:00 pm (check-in at 12:30 pm)
Camp meets in Gymnasium
Fee: $175

Session 2:
Mon. - Fri., July 13-17
9:00 am - 2:00 pm (check-in at 8:30 am)
Camp meets in the gymnasium
Fee: $210

Seahawks Water Polo Camp (ages 10-14)
Join the Cabrillo Seahawk Water Polo coaches for a week of water polo at the beautiful Cabrillo College pool. This camp will be an introduction into the game of water polo with a focus on the rules of the game, fundamentals and fun competitions!

All are welcome, however, experienced swimmers with ability to swim in the deep end is required.

Camper should come dressed in their swimsuits and bring a towel, water, sunscreen and a snack daily. This camp will be a great opportunity to learn the game of water polo in a fun, safe environment. Lifeguards will be on duty and there will be plenty of supervised breaks.

Mon. – Fri., June 8–12
11:00 am - 2:00 pm
Cabrillo College Pool
Fee: $150

Summer Softball Camp (ages 10-17)
Join the Cabrillo College Softball coaching staff and players for an awesome week of softball instruction, training, fun, and games. We will teach all players the important fundamentals as well as higher-level skills.

Campers will work with coaches and student athletes of the current Cabrillo team. We will be teaching our campers defensive and offensive strategies, plus, this camp will allow time for pitching, hitting, catching, and individual position play.

Wear sport appropriate attire, bring cleats and a softball glove as well as snacks, lunch and water.

Come get a sneak peak of Cabrillo College Softball and what a week feels like training at an elite level.

Mon. - Fri., June 22–26
9:00 am - 1:00 pm
Softball Field
Fee: $195

To register, visit us online at www.cabrillo.edu/youth or call (831) 479-6331
**Mini Mermaids Running Club Camp (ages 7-12)**
The finish line is just the beginning! In small groups, girls learn about self-compassion and self-worth through the lens of two characters, Mini Mermaid and Siren. They each represent the two voices heard in the world and in our own hearts. Telling the difference between the two characters leads to clarity and mindfulness which leads to greater self-compassion and empathy.

Girls are taught the value of exercise and moving their bodies regardless of size, shape, or ability. Each day includes games, activities, and workouts aimed at preparing girls for a race at the end of the week. The workouts are not focused on being first or running fast, but rather on each girl finding her own pace so she can run her own race.

Runners will be divided into the following age groups: 7-9 year olds and 10-12 year olds.

Mon. – Fri., June 29 - July 3 OR July 27-31 9:00 am - 12:00 noon
Track and Field

Register before May 28: $180
Register after May 28: $195
Annie Barrett - see bio

---

**Mini Mermaids Junior Coaches Camp (ages 13-17)**
Middle and High School girls learn to lead and mentor younger girls through their Mini Mermaid running journey. Learn leadership and mentorship tools by working alongside experienced Mini Mermaids Running Club coaches. Junior Coaches help support games, activities, and workouts aimed at preparing girls for a race at the end of the week.

No coaching or running experience is required. Mini Mermaid Running Club teaches kids the value of exercise and moving their bodies regardless of size, shape or ability.

Mon. – Fri., June 29 - July 3 OR July 27-31 9:00 am - 12:00 noon
Track and Field
Register before May 28: $180
Register after May 28: $195
Annie Barrett - see bio

**Seahawk Tennis Camps (ages 12-18)**
Enroll today in our exciting new Seahawk tennis camp! Designed for intermediate to advanced players who are looking to improve their competitive skill set, this camp is sure to help you improve your game.

Led by Seahawks Head Coach David Van Ness, USPTA certified instructor and former professional tournament player, this camp would be an excellent fit for students who play on a high school tennis team as well as those looking to improve or participate in tournament play.

Please bring your own equipment, sunscreen and wear active clothing.

All skill levels welcome. Register Early! Limited space in each camp.

Session 1: Tue. – Fri., June 16-19
Session 2: Tue. – Fri., June 23-26
2:00 – 3:30 pm
Cabrillo College Tennis Courts
Fee: $75 each session

**Aerial Arts and Circus Camp (ages 9-12)**
Ready to fly? This camp introduces future aerialists to silks, hammocks, trapeze and lyra as well as partner acrobatics, hula hooping, and more. Students become acquainted with a different style of movement introduced through obstacle courses and games on the ground first and graduating to spinning and swinging on silks, lyra, and trapeze by the end of the week. Emphasis will be placed on movement and strength building, while working at your own pace and comfort level. A heavy importance is placed on safety and fun. Be amazed at the tricks you will perform!

Circus Camps are held at Santa Cruz Circus Arts, 125 Post Street in Santa Cruz. This brand new aerial acrobatics studio is a space where everyone feels welcome, included, inspired, and safe to learn new skills while making new friends.

Mon. – Fri., July 20-24
9:00 am – 12:00 noon
Santa Cruz Circus Arts, 125 Post Street, Santa Cruz
Register before May 28: $225
Register after May 28: $240
Caitlin Lackey completed the Aerial Arts Instructor training several years ago and enjoys teaching all ages, levels, and abilities. She has been taking Aerial and Circus Arts classes for over four years, performing internationally and locally. She is committed to encouraging students to overcome fears, gain confidence, and have fun.
**PARKING & PICK-UP/DROP-OFF**

**PARKING**

When bringing children to Cabrillo for camps please make time to find parking in a “student” space close to your child's camp location, and to pay for a daily permit. Permits are available at permit dispensers in each parking lot and structure. Daily permits are $4 a day, and only credit/debit cards are accepted. Summer semester permits are available for $48.00. They may be purchased online through Cabrillo Extension, and may be picked up in the Extension office beginning June 1st. This permit will allow you to park in “student” spaces from June 15 to August 21. See our website for details.

Cabrillo College does not provide “FREE” parking. All vehicles parked on Cabrillo College property are required to properly display a valid Cabrillo College parking permit. Parking is enforced on campus 24 hours a day, 7 days a week. The Cabrillo College District Parking Regulations and the California Vehicle Code are enforced at all times. Vehicles not properly parked, or not in compliance with Cabrillo College District Parking Regulations or the California Vehicle Code, are subject to fines, towing, or impoundment.

For more information about Cabrillo College parking regulations, please visit [http://www.cabrillo.edu/services/sheriff/parking.html](http://www.cabrillo.edu/services/sheriff/parking.html) or call the Cabrillo Extension office at (831) 479-6331

**Pick-up/Drop-off & Late Fees**

Children will only be released to individuals identified during the registration process, or by completing an Additional Pick-Up Authorization (“green form”) at the camp. Please note we will request photo identification from everyone picking up a child, every day, without exception. If the name on the ID does not match the authorized list, your child will not be dismissed until permission has been obtained from parent/guardian.

If your child is 12 years or older, and for any reason will not be signed out at the end of each day (such as walking, taking the bus, or biking), please request a “Youth Self-Sign-Out Authorization” (“pink form”) from the Extension office, or complete one on the first day of the camp. This authorization supersedes the authorized pick up list, and children will be dismissed by the lead instructor at the posted end time of the camp.

To ensure the safety of all students and respect the contributions and time of our instructors, we ask that parents do not drop off their children more than 10 minutes prior to the posted start time of the camp. We also ask that parents pick up their children promptly at the end of camp. Late fees will be charged to the payment method used for original registration beginning at 15 minutes after the end time of the camp, at the rate of $25 per 15 minutes.

If you are running late to pick up your child, please contact the Extension office at (831) 479-6331 immediately.

**SCHOLARSHIPS**

Cabrillo Extension is happy to offer a limited number of scholarships for our summer youth program. Scholarships provide students and families the opportunity to enjoy our camps and classes at reduced registration fees.

Scholarship details including application process, awards, award criteria, and applications are available on our website at [http://www.cabrillo.edu/youth](http://www.cabrillo.edu/youth), or from the Extension office. We are located on the lower campus in building 2100A. Please see Campus Map on page 33. Please note the important dates below.

- **Tuesday, February 11:** Link to Scholarship Application Form, including application checklist, posted on our website at [http://www.cabrillo.edu/youth](http://www.cabrillo.edu/youth)
- **5pm, Friday, April 24:** Application submission deadline
- **5pm, Friday, May 8:** Applicants notified via email
- **5pm, Friday, May 22:** Deadline to complete registration using a scholarship

Please note that the Scholarship Application requires a recommendation/letter from a teacher, counselor, or community member who is not related to the child. This must be submitted with the application.

Spanish language scholarships are available on the website, or can be picked up from the Extension office. Aplicaciones para becas son disponibles en español sobre la red, o en nuestra oficina “Extensión office”.

**GENERAL INFORMATION AND REGISTRATION**

**REGISTRATION IS EASY!**

The fastest way is online registration at: [www.cabrillo.edu/youth](http://www.cabrillo.edu/youth), 24 hours a day, 7 days a week.

Parents, follow these simple steps for online registration.

**IF YOU ARE NEW TO EXTENSION**

Please follow these steps to create a Household Profile, add your child, and register for classes!

- **Step 1** Go to [www.cabrillo.edu/youth](http://www.cabrillo.edu/youth) and under "Info for Students" in our top menu bar select “Registration log-in”, then click “Login/Create Account” at the top of the page.
- **Step 2** Be sure to create a [Household Profile](http://www.cabrillo.edu/youth) and check our online FAQs for helpful tips.
- **Step 3** Add your child to the household profile—complete the online Required Student Information you provide this information once, and we use it for multiple camps and classes!
- **Step 4** Find your class(es) or camps and add to your cart.
- **Step 5** Complete the online Required Student Information—check our online FAQs for helpful tips. Late registrants may find a class full, and delayed registration may result in a cancelled camp. If you have questions, please call us and we'll be happy to help!
- **Step 6** Click “Check-out” and complete your credit card payment.

**IF YOU ALREADY HAVE A PROFILE IN OUR SYSTEM**

Please follow these steps:

- **Step 1** Add your child to the household profile—check our online FAQs for helpful tips.
- **Step 2** Find your class(es) or camps and add to your cart.
- **Step 3** Complete the online Required Student Information—you provide this information once, and we use it for multiple camps and classes!
- **Step 4** Click “Check-out” and complete your credit card payment.

**Refund, Transfer & Cancellation Policies**

**If You Need to Cancel:**

All cancellations are subject to a 10% service fee. Refunds will be given only if the request is received by Cabrillo Extension at least 10 business days prior to the first day of camp. We request that parents or guardians speak directly with a Cabrillo Extension staff member in order to cancel a camp registration. No refunds will be issued after the above stated deadline. Refunds will not be issued for days missed in a multiple-day camp or class, and make-up days are not available. Refunds made via check may take up to 30 days to be received, and this may vary based on postal delivery schedules.

One-time transfers are not subject to a service fee. Subsequent transfers will be charged the 10% service fee.

If a student wishes to transfer from one camp to another, the following requirements apply:
- Only one transfer can be made.
- Transfer must be requested no fewer than 10 days prior to the first day of the camp they were originally registered for, or the one they wish to transfer to, whichever comes first.
- The camp they want to transfer to must have available space.

- The student must meet the age requirements of the camp they wish to transfer into.
- Students may not transfer their registration to another student.

**If Extension Cancels a Camp:**

We make every effort to avoid cancelling camps! We know summer is a busy time, and you’ve built your schedule around your child’s experience this summer. However, Cabrillo Extension reserves the right to cancel camps due to severely low enrollment or other unavoidable circumstances. In the event of a camp being cancelled, families will be notified of the change at least 2 weeks prior to the camp start date and will receive a full refund or credit to their account. We will also work with families to find an alternate camp that serves their needs, and complete a transfer with no service fees.

**Discount for Registration**

All classes have regular fees listed. Some have “Early Bird” discounts. Discounts do not apply to all classes, and only one discount may be applied per registration. Registrations that are mailed in must include the appropriate fee, and any materials fees. Late registrants may find a class full, and delayed registration may result in a cancelled class. If you have questions, please call us and we’ll be happy to help!

The Cabrillo Extension program strives to deliver a wide variety of programs and services to supplement the college’s instructional program. Classes offered through the Extension program are responsive to community need and interest, although they do not generate college credit, grades, transcripts, nor are they transferable. These fee-supported classes are presented for information and enjoyment and do not necessarily reflect the views of the Cabrillo College District. The college does not endorse any product or the services of any presenter.
