Hello and Welcome to Figure Drawing for Teens:

This course will introduce students to the basics of figure drawing and provide an opportunity for practice.

It will be helpful if students bring:

- 18 x 24 inch sketch paper
- several sticks of vine charcoal
- a piece of chamois
- an eraser

Extra materials will be available.

We will work from a clothed model, with short and long poses, to practice gesture, sighting and measuring, and foreshortening. We’ll explore line and tone as the primary vocabulary of drawing.

We will start ON TIME so students are expected to arrive a few minutes early.

Please let me know if you have any questions.
I look forward to meeting you!

Claire Thorson
