Cabrillo College Extension

YOUTH @ HOME

LATE SPRING
2020

CLASSES & WORKSHOPS FROM THE SAFETY OF YOUR HOME!

REGISTER ONLINE:
cabrillo.edu/extension
The Extension team is working from home, and still here to help!

Although we are not in the office, we are here for you! You can still register online at cabrillo.edu/extension and if you have any questions, or need help getting registered, our staff is available Monday through Friday, 9:00am – 5:00pm.

You may leave us a message at 831-479-6331, or email us at extension@cabrillo.edu. We are checking voicemail and email several times a day, and will reply by the next business day. If you would like to talk to one of our staff, let us know a good time to call you back, and we can help get you registered over the phone.

Help—I’m a Homeschool Parent!
Quick Help with Technology and Education
For parents who are suddenly facing the challenge of homeschooling, and using technology in a whole new way, this class will guide through your new school environment! See page 8 for details!

Necessity is the mother of invention…

So, we’re inventing! Collaboration and human connection is what we do, and we are excited to provide you the opportunity to stay connected, engaged, and active in the safety of your own home. Our instructors and partners have worked with us to create entirely new, live instruction classes that meet in the virtual classroom. These will open a window for you, your family, friends, and neighbors to interact with your instructor and each other during the class. Many of these “new” opportunities are new versions of the classes and workshops we have always offered, led by the same instructors you’ve come to know and love. Some are entirely new partnerships with local organizations. All are designed to help keep you learning, creating, and connecting while you are safe at home.

LEARN FROM THE COMFORT OF HOME!

@ HOME Options to Suit Every Need!

ONLINE CLASSES!

• Our online courses are fun, informative, convenient, and highly interactive. We focus on creating warm, supportive communities for our learners.
• Complete any of these courses entirely from your home or office and at any time of the day or night.
• Choose from two convenient options to suit your needs: Instructor-led courses begin every 6 weeks.
• Self-paced courses allow you to complete a course on your own schedule.

LIVE INSTRUCTION!

• These classes are live, in real-time, and offered in a virtual classroom.
• Connect with other students who share your interests.
• See and interact with your instructor, and your fellow students, for a more personal experience.
• Access your virtual classroom via Zoom. Students do not need to have a Zoom account! You can join directly from your favorite web browser. Just one click, and you’ll be taken straight to your virtual classroom, no extra log-in required.

Instructor-led courses begin every 6 weeks.
Self-paced courses allow you to complete a course on your own schedule.
Intro to Creative Digital Illustration –Level 1 (Ages 12–15)

This camp is focused on helping aspiring young artists, who want to take their art to a higher level, learn illustration software in a fun, creative way. This intro class includes clear lessons, instructor interactions, and practice time to learn how to use the fundamental tools. This is a great way to get a young artist up and running with modern, digital skills so they can create great graphics and illustrations at home.

Projects are focused around creating a beginning illustration using the Adobe Illustrator tools & basic graphic design and illustration techniques.

2 Mon., 2 Wed., & 2 Fri, April 20 - May 1
11:30 am - 12:30 pm
Fee: $75
Alix Mullins

Students will need to have the following in order to participate in these classes:

- Laptop or Desktop Computer
- Access to Zoom Video platform / webcam
- Licensed, downloaded working copy of Adobe Illustrator CC installed on your computer
- Adobe Illustrator subscriptions must be purchased and installed separately, independent of this class. Class fee does NOT include an Adobe software subscription. Software demonstrated in this class is available from Adobe for students for $20.99 a month for the single application or it is available as part of the entire Creative Cloud bundle for $52.99. Find out more at Adobe.com
- You can easily take the class without a Stylus Pen however if it’s available, it can be helpful.
- Recommended but not required: Wacom Drawing style pen
- Google USER ID will be needed, as course materials are available via Google Classroom

Character Illustration with Adobe Illustrator (Ages 12–15)

Take your comic book, graphic novel, or picture book character drawings and learn how to build them up, layer by layer, in Illustrator via live, interactive Zoom sessions with your instructor and fellow students. Alix will guide students through the steps to allow you to bring your images to the next level by creating & organizing your illustration files in Illustrator. Once your files are set up, your character can be illustrated in varying poses & expressions. This workshop will include live demos by your instructor, as well as access to tutorial videos & practice files.

This class is designed for those students who have developed characters using traditional drawing techniques. Students should also have completed Alix’s Intro to Adobe Illustrator, or have equivalent solid, fundamental Adobe Illustrator skills.

Students will need to have the following in order to participate in this class:

- Laptop or Desktop Computer
- Access to Zoom Video platform / webcam
- Licensed, downloaded working copy of Adobe Illustrator CC installed on your computer
- Adobe Illustrator subscriptions must be purchased and installed separately, independent of this class. Class fee does NOT include an Adobe software subscription. Software demonstrated in this class is available from Adobe for students for $20.99 a month for the single application or it is available as part of the entire Creative Cloud bundle for $52.99. Find out more at Adobe.com
- You can easily take the class without a Stylus Pen however if it’s available, it can be helpful.
- Recommended but not required: Wacom Drawing style pen
- Google USER ID will be needed, as course materials are available via Google Classroom

2 Mon., 2 Wed., & 2 Fri, May 18 - 29
11:30 am - 12:30 pm
Fee: $75
Alix Mullins

Alix Mullins

Alix has been a professional media and graphic designer for over 10 years and has taught Digital Media at Gavilan and Cabrillo colleges. She is an internationally published, award-winning artist & photographer and her art has been shared around the world in the form of greeting cards, puzzles, posters and other manufactured items.
Make Your Own Mini Comics at Home (Ages 9-12)

Dive into comic making in your home surrounded by other comic lovers in a class led by a comic artist! Students will learn both writing and drawing elements with classes focusing on character design, poses, facial expressions, settings, emanata (aka the secret code of comics) and much more! This class will give students all the information they need to craft and create their own comics at home with the materials they have on hand.

Students need to have paper, pencil, eraser, and scissors. Students may also work on a tablet, but that’s not necessary. Templates and prompts are provided in digital form, and having the ability to print simple documents is helpful, but not necessary.

Mon., Wed., Fri., April 20 - May 1
4:30 - 5:30 pm
Fee: $60
Meggie Ramm

Science Meets Art: Illustrating Insects, (Ages 9-12)

Is your child a budding entomologist (bug scientist) or a blossoming artist? Do they want to learn to draw while exploring insects both beautiful and weird? Join Yvette of the Art Factory for this exploration of where science meets art. Your child will “learn to look longer” while learning the fundamentals of drawing and explore a variety of art mediums alongside their new friends in the virtual classroom.

Each day, students will get inspired by a new Central Coast insect. The creatures will advance in difficulty as the skills build as the classes progress.

The following materials are required to participate in class, and are all available at Lenz Arts, and online at Dickblick.com: pencil, eraser, sharpener, blending stump, 1 kleenex, 6B pencil, colored pencils, drawing paper, and bristol board paper.

3 Tue. & 3 Thu., April 21 - May 7
1:00 - 2:00 pm
Fee: $90
Yvette Contois

Meggie Ramm (they/them pronouns) is a cartoonist and comic educator that LOVES comics. They hold an MFA in comics from California College of the Arts, and currently teach comics to schools across the Bay Area (aka the best job on the planet). They are the sole creator of the online kids comics ‘Stick World,’ the writer of the educational comic ‘Teach Kids Comics,’ one half of the educational comic podcast ‘Pop! Whiz! Bang!’, and are currently working on their first full length graphic novel. When they aren’t doing something with comics (which is rare), they are rewatching Buffy the Vampire Slayer for the 80th time.

Yvette Contois, BFA has been giving art lessons to adults & children since 1990. She has a K-12 Art Teaching Certification, and her guiding passion is bringing art into the lives of her students. You will also find her in the studio/classroom at the Art Factory, teaching art at Santa Cruz Montessori, and freelancing as a technical illustrator.

Storytelling with Digital Media: Make Your Own Movies! (Ages 9-12 and 13-15)

Kids love to read stories and watch movies, but they also love to invent their own characters, tell their own stories, and make their own movies! This camp opens the door for students to use their imagination to develop colorful characters, design and build a set, create unique stories, and make their own movie magic using stop motion animation! They will learn basic set design, story development, lighting, sound, and editing.

Every object has the potential to be brought to life with stop motion!

This is a project that will keep your kids busy using the materials in your own home. Once they have the basics tools they can take this knowledge they gain and keep creating endlessly!

Using Stop Motion Studio Pro, a movie making app, students will create an animated video using characters they love. We will explore claymation, creating original music with GarageBand (if you have Apple devices), creating spiffy graphics with Adobe Spark, and learning to edit short videos with Stop Motion Studio or iMovie. Students can spend time at home learning to use digital media to create stop motion animation movies!

Please see the class registration webpage for a link to the Class Letter that includes the supply list. The list will serve as a guide for things that work well to create characters and sets for an original stop motion animation video.

Ages 9 - 12
2 Tue. & 2 Thu., April 21 - 30
3:30 - 4:30 pm
Fee: $60
Yvette Contois

Ages 13 - 15
2 Tue. & 2 Thu., April 21 - 30
5:00 - 6:00 pm
Fee: $60
Wendy Milette

Wendy Milette, MFA, is a GATE mentor and Hi-Tech Innovation Lab Director at Pacific Elementary School, and the Director of Media Arts Education for the MY HERO Project, a globally connected learning community. To learn more go to myhero.com. She has been working with youth for over 30 years. Wendy lives in Davenport with her husband Chris and their cat, Tink.
Cooking @ Home: Learn to Make Dinner with Chef Sean!  
(Ages 8-11)
Join Chef Sean, and other hungry kids in their kitchens too, as you prepare food together in the virtual classroom. We will meet just before dinner to make delicious (and easy) pepperoni polenta pizzetas with mozzarella cheese and tomato sauce. This is a fun and simple way to make something the whole family will enjoy. Each person can customize their own pizzeta with whatever ingredients they have in the fridge!

No cooking or cutting necessary during class, and you can prep everything the night before using Chef Sean's ingredients list and tips. These tasty meals can be made with easy-to-get ingredients and tools you already have at home!

Please see the class registration webpage for the list of ingredients and tools that students will need to have on hand for this class.

Wed., April 15
3:00 - 4:00 pm
Fee: $15
Sean Adams - see bio page 27

Cooking @ Home: Learn to Make Dinner with Chef Sean!  
(Ages 12-14)
Join Chef Sean, and other hungry kids in their kitchens too, as you prepare food together in the virtual classroom. We will make healthy snacks, fantastic finger food, all in the comfort (and safety) of your own kitchen! We'll meet Mondays, Tuesdays, and Wednesdays just before dinner. All you need is a few simple tools that are already in your kitchen, some basic groceries, your enthusiasm, and your appetite!

Some of the delicious meals we will make together include: creative kid-friendly charcuterie board, filled with meat, sliced veggies, cheeses, crackers, sliced apples and ranch dressing; crunchwrap supreme with scrambled eggs, beans, and cheese all wrapped up in a big flour tortilla and pan fried to a golden brown; stuffed bell peppers with rice, corn, and turkey. The great thing about these recipes is that they can easily be prepared ahead of time and for the entire family! Also, all recipes can be made vegetarian.

Some cooking and cutting is necessary during class. Be sure to have everything ready from Chef Sean's ingredients list and tips. Students will learn how to get organized, identify their tools, and learn to prepare food safely on their own—otherwise known as Mise en Place, which means “everything in its place”.

No cooking or cutting necessary during class, and you can prep everything the night before using Chef Sean's ingredients list and tips. These tasty meals can be made with easy-to-get ingredients and tools—you might already have everything at home!

Students may share their delicious meals in the Google classroom after the live meeting so they can see what everyone has made—yum!

Please see the class registration webpage for a link to the Class letter with the list of ingredients and tools that students will need to have on hand for this class.

2 Mon., 2 Tue. & 2 Wed., April 20 - 29
3:00 - 4:00 pm
Fee: $90

Help—I’m a Homeschool Parent! Quick Help with Technology and Education

For parents who are facing the challenge of homeschooling, and using technology in a whole new way, Wendy will become your personal tour guide through your new school environment. Wendy will cover practical tools for using Zoom, Google Classroom, Google Suite, and how to use cell phones as an educational tool. She will also address privacy, internet security, and managing screen time. By the end of this crash course, you will feel more comfortable facilitating your child’s learning adventure.

For the last 30 minutes of class, Wendy will open the floor for Q&A to address individual situations and challenges.

Choose from several schedule options:

- Tue., April 14
  1:30 - 3:00 pm
- OR
- Thu., April 16
  8:00 - 9:30 am
- OR
- Sat., April 18
  8:00 - 9:30 am
- OR
- Sat., April 25
  2:00 - 3:30 pm

Fee: $15

College Planning: Finding Colleges That Fit and How to Afford Them

Is it hard to imagine how you can afford to pay for one (or more) college educations? Are you concerned about your child’s path to college? Do the application requirements and deadlines seem confusing? Even if your child gets into the college of their choice, paying for college is one of the largest expenditures most parents face in their lifetimes.

If you are a parent with a middle or high school student, this class will help you and your student plan and prepare for college. We’ll discuss:

- How to search for colleges that fit
- How to understand what admission committees are looking for
- How to write that dreaded essay and create an excellent resume
- What strategies can help you reduce college costs through planning
- Various savings methods and tax strategies
- How you can maximize potential financial aid with some advanced planning.

This class will help you understand the selection and application process, and make financial decisions that avoid many of the common mistakes that can cost your family hard-earned money.

High school students are encouraged to join Session 1 with their parent(s) at no extra cost.

2 Tue. & 2 Thu., April 21 - 30
6:45 – 7:45 pm
Fee: $50
Stephen Shapiro, Maureen Casey

Wendy Milette
Maureen Casey, MA
is a credentialed California Instructor and Administrator, a former college counselor, and a principal at Casey Educational Consulting, offering college preparatory academics and guidance.

Steve Shapiro,
CPA, CFP, has advised individuals on financial matters for over 20 years and has led financial workshops since 1989.

LEARN FROM THE COMFORT OF HOME!

Classes are offered via Zoom, but students do not need to have a Zoom account! You can join directly from your favorite web browser. Just one click, and you’ll be taken straight to your virtual classroom, no extra log-in required.

ONLINE CLASSES

Welcome to www.ed2go.com/cabrillo

Over 500 courses are available on our ed2go website!

1. Visit our Online Instruction Center: www.ed2go.com/cabrillo
2. Select your class and follow the prompts.

Choose from two options… to suit every need!

Instructor-Led Classes

Our instructor-led online courses are informative, fun, convenient, and highly interactive. Our instructors are famous for their ability to create warm and supportive communities of learners. You can complete any of these courses entirely from your home or office and at any time of the day or night.

These courses run for six weeks, and new lessons are made available every Wednesday and Friday. All courses are project-oriented and include lessons, quizzes, hands-on assignments, discussion areas, supplementary links, and more.

Start Dates:
Classes are offered monthly.

Requirements:
All courses require Internet access, e-mail, Microsoft Internet Explorer, or Firefox web browsers. Some courses may have additional requirements. Please visit our Online Instruction Center for more information.

Self-Paced Tutorials

Our Self-Paced Online Tutorials are counterparts to many of our 6-week online classes. This option allows you to complete a course on your own schedule. What makes this option different?

• You can start the course any time instead of the fixed monthly start dates.

• All content is made available to you immediately after you register.

• You can work through content at your own speed.

• Courses must be completed in three months instead of six weeks.

Register at any time!
If you want to quickly build industry skills or earn continuing education credits, these independent study tutorials are for you! They cover a wide variety of fields, and you can start anytime and work at your own pace. You’ll have access to all course material and assessments from day one, and many tutorials can be completed in just a few hours. You’ll enjoy content developed by industry leaders and get helpful student support whenever you need it. Upon finishing your tutorial with a passing score, you’ll receive a certificate of completion.

New courses are being added on a regular basis so please continue to check back for more and exciting new content!

Spotlight: Spring 2020

CHILDREN, PARENTS, & FAMILY

Adobe Animate CC Training
This self-paced course will train you in the basics of Animate (formerly Adobe Flash). If you’re new to Animate, need to update your Flash skills, or want to start designing rich, interactive animations, this course is for you. By course completion, you will have the skills you need to deliver your interactive animations to any device.

Empowering Students With Disabilities
Explore common disabilities you’ll encounter in the classroom and master techniques for promoting academic, behavioral, and social skills in students with special needs.

Homeschool With Success
Discover how to homeschool your children in a way that ensures they get what they need both academically and socially.

Genealogy Basics
Learn where to look, who to contact, and how to use research tools to begin an exciting exploration of your roots.

Ready, Set, Read!
A learning specialist shows you how to raise a successful reader and writer.

How to Get Started in Game Development
There has never been a better time to start a career in the game development industry. Games can be found on computers, the Web, gaming consoles, and virtually every mobile tablet and phone. Whether you want to start your own independent game project at home or work with a small creative team or for a large game development studio, this course will prepare you to start developing your own games.

Introduction to Digital Scrapbooking
Learn to use digital editing techniques to show off your photos and memorabilia in Introduction to Digital Scrapbooking! Using Photoshop Elements 11, 12, or 13, this course will teach you how to make the most of your scrapbooking talents and artistic ideas when you combine traditional and digital scrapbooking.

Luscious, Low-Fat, Lightning-Quick Meals
Join a registered dietitian and discover how easy it can be to prepare meals that are both delicious and nutritious!
