How to Use this Directory

Welcome to Blue Shield of California. The following pages list the HMO network physicians and hospitals in your service area. For easy reference, this directory is divided into several sections:

- **Independent Practice Associations (IPAs) and Medical Groups** are listed alphabetically by name within a specified geographic area. Following the IPA/Medical Group name, address and phone number, you'll find:
 - **Hospitals** associated with each IPA/Medical Group.
 - **Urgent Care Centers** affiliated with each IPA/medical group, listed alphabetically by name.
 - **Personal Physicians** affiliated with each IPA/medical group, listed by city, specialty and name, in alphabetical order.
 - **Obstetricians/Gynecologists (OB/GYNs)** affiliated with each IPA/medical group, listed by city and name, in alphabetical order. The names of OB/GYNs authorized to serve as Personal Physicians are included in the Personal Physician listings.
 - **Specialists** affiliated with each IPA/medical group, listed by city, specialty and name, in alphabetical order.
- **Service Areas** include the counties and cities listed within this directory.
- **General Index** contains an alphabetical listing of Personal Physicians, OB/GYNs and specialists, by their last names.
- **IPA/Medical Group Index by City** provides an alphabetical listing of IPA/medical groups by city.

Definitions:

Medical Group: An organization of physicians who are generally located in the same facility and provide a range of healthcare services to health plan members.

Independent Practice Association (IPA): A group of physicians with individual offices who contract, manage and share financial responsibilities for providing healthcare services to health plan members.

About quality and relative cost indicators

We give you information that can help you make informed decisions about hospital care. You'll see quality measures and relative cost indicators in this directory, to help you choose a hospital.

We use quality data compiled from two leading independent performance initiatives: the Leapfrog Group survey, which focuses on hospital quality and safety practices, and the hospital performance ratings used by the California Hospital Assessment and Reporting Taskforce (CHART).

The Leapfrog Group is an initiative driven by organizations that buy health care who are working to initiate improvements in the safety, quality and affordability of healthcare for Americans. The Leapfrog Group's growing consortium of major companies and other large private and public healthcare purchasers provide health benefits to more than 37 million Americans in all 50 states. The Leapfrog Group survey is a voluntary program in which hospitals report on the quality and safety practices they have implemented.

CHART uses a statewide hospital performance reporting system in collaboration with health plans, hospitals, and employer groups. It produces a standardized California hospital quality report card and supports hospital quality improvement efforts. Through CHART, hospitals are rated on over 70 performance indicators, including patient satisfaction measures and specific conditions such as heart disease, surgical infection prevention, and pneumonia.

When you look at a hospital's listing in this directory, you'll be able to see whether that facility participates in the Leapfrog Group and CHART programs. You'll also see codes that can help you determine the hospital's relative cost.

Please note that the cost of a hospital's care does not necessarily determine its quality of care. We determine a hospital's relative cost by comparing patient care costs for certain illnesses and procedures at all network hospitals in that geographic area.

The number of dollar signs associated with a hospital indicates how expensive that hospital is, in general, compared with other similar hospitals in the network. One dollar sign (\$) indicates the lowest cost, and four dollar signs (\$\$\$\$) indicate the highest cost.

\$ --- Lowest cost hospital

\$\$ --- Lower cost hospital

\$\$\$ --- Higher cost hospital

\$\$\$ -- Highest cost hospital

You might want to discuss this information with your doctor when making decisions about hospital care.

We will continue to work closely with hospitals on quality measures to provide you with valuable information and enable you to make informed decisions about your care.

If you have any questions about one of our network hospitals you can call Member Services at **(800) 424-6521**

Your Personal Physician

When enrolling in an Access+ HMOSM or Blue Shield's Added AdvantageSM Point-of-Service (POS) plan, you and each covered family member must choose a Personal Physician from this directory. Except for emergency services, your Personal Physician will provide or coordinate all of your medical care. If you don't indicate on your enrollment form the Personal Physician you have selected, Blue Shield will select a Personal Physician for you. Each family member may choose the same or a different Personal Physician. Your Personal Physician should be located close enough to where you live or work to ensure that you have reasonable access to care, as determined by Blue Shield of California.

If you or one of your eligible family members are already a patient of any of the Personal Physicians listed in this directory and have seen that physician within the past year, you might still be able to select that doctor as your Personal Physician, even if he or she is not accepting new patients. Be sure to call the doctor's office first to make sure that you are listed as his or her current patient before you select that doctor as your Personal Physician.

Specialty Care

We encourage you to develop a close relationship with your Personal Physician by discussing your medical condition and concerns with him or her. If your Personal Physician cannot treat you or feels that specialist care is appropriate, he or she may submit a request (also called a referral) to his or her IPA/medical group recommending that you be sent to a specialist or a different Personal Physician.

Some referrals require prior authorization. If the referral is approved, you will usually be sent to a specialist or another doctor in your Personal Physician's IPA/medical group, and you will be charged your standard office visit copayment. If the type of specialist you need is not available within your Personal Physician's IPA/medical group, you might be referred to a specialist outside of your Personal Physician's IPA/medical group.

Depending on the urgency of your condition, the time it takes to get an appointment with a specialist could vary. Your Personal Physician can give you an estimate of how long it will take to get an appointment and provide you with the specialist's phone number and address.

If your Personal Physician feels that a referral is not appropriate for your medical condition, he or she will discuss other treatment options with you.

Access+ HMO Members have Access+ *Specialist* Options

If you are an Access+ HMO member, you may use the Access+ *Specialist*SM option to go directly to any specialist in the same IPA/medical group as your Personal Physician **without a referral**. Check your Access+ HMO member materials for complete details about the Access+ *Specialist* option. This option is not available to Blue Shield POS plan members.

To use the Access+ *Specialist* option, your Personal Physician must belong to an IPA/medical group that is an Access+ provider group and that offers the Access+ *Specialist* option. In this directory, Access+ provider groups have an "(A+)" next to their names.

IPA/medical groups that are not Access+ provider groups do not offer the Access+ *Specialist* option. Please note that you might need to change your Personal Physician to one that is in an Access+ provider group to take advantage of the Access+ *Specialist* option. (See **page v** for information on changing your Personal Physician.)

Annual Gynecological Exams

Women can make an appointment for an annual gynecological exam, at no extra charge, with an OB/GYN in their Personal Physician's IPA/medical group without a referral from their Personal Physician. An annual gynecological exam usually includes an office visit, breast and pelvic exams, a Pap test and urinalysis. The nature of the exam, however, will vary according to each woman's age and her family and medical history. Any follow-up care should be provided or coordinated by the Personal Physician.

HMO Hospitals

Except for emergency services, all inpatient hospital care must be authorized in advance by your Personal Physician and the Blue Shield Access+ HMO or POS plan.

Urgent Care Centers

You should seek care from an urgent care center when you have a medical condition that is not an emergency but requires medical attention that cannot be delayed without seriously jeopardizing your health..

You should go to an urgent care provider when you need non-emergency care the same day and you cannot make an appointment with your Personal Physician. In such instances, you are encouraged to use an urgent care provider rather than a hospital emergency room to minimize your healthcare costs.

The urgent care providers included in this directory are freestanding centers, not hospital emergency rooms. They offer extended hours of operation, including weekends, and do not require patients to make an appointment in advance.

You should not use an urgent care provider in place of seeing your Personal Physician. Whenever possible, you should check first with your Personal Physician before contacting an urgent care provider.

If you have an emergency condition that requires immediate care, go to the closest emergency room or call 911.

Subacute Care Facilities

Subacute care facilities provide skilled nursing or rehabilitative care in a hospital or skilled nursing facility to patients who require nursing; physical, occupational or speech therapy; or a coordinated program of multiple therapies. Rest homes, convalescent facilities and homes for the aged are not included among subacute care facilities. You should discuss your options for subacute care with your physician.

If you'd like a directory of contracting subacute care facilities or need more information about using subacute care facilities, please call Member Services at the number shown on your Blue Shield ID card or at **(800) 424-6521**.

Remember to Call First

Unless you have an emergency, always call your Personal Physician before you seek medical care. Except for emergency services, care through your Access+ *Specialist* option and annual gynecological exams, Blue Shield will not cover your medical care unless it is provided or coordinated by your Personal Physician. For more information about coverage of urgent care, please read your *Evidence of Coverage booklet*.

For a complete description of coverage for emergency services, please read your *Evidence of Coverage booklet*.

Specialty Designation

Among the physicians listed in this directory, only those who have been certified by a recognized medical specialty board will be identified as "board certified." This applies to Personal Physicians, specialists and OB/GYNs.

Physicians listed in specialty classifications other than "General Practice" include only the following:

- Those who have been specifically trained in the specialty indicated (physicians generally termed to be "board eligible"), and
- Those who Blue Shield has verified before the time this directory was printed as having received board certification in the particular specialty or subspecialty for which they are listed.

Physicians who are neither board certified nor board eligible for a particular specialty will be listed in this directory under the classification "General Practice." If the specialty status of any physician changes, the change will be reflected in subsequent editions of this directory.

Family Planning Services

Some hospitals and other providers do not provide one or more of the following services that may be covered under your plan contract and that you or your family member might need: family planning; contraceptive services, including emergency contraception; sterilization, including tubal ligation at the time of labor and delivery; infertility treatments; or abortion. You should obtain more information before you enroll. Call your prospective doctor, medical group, IPA or clinic, or call Member Services at **(800) 424-6521** to ensure that you can obtain the healthcare services that you need.

Directory Updates

Because of periodic changes in our provider networks, you should confirm each provider's network status prior to receiving services. You should also verify that your physician is a network physician at the location where you wish to receive care. You can do so by calling the provider directly or by calling Member Services.

The fastest way to obtain the most up-to-date information on network physicians, hospitals, IPAs and medical groups is to visit our Web site, **blueshieldca.com**, and click the Find a Provider link. This online directory information is updated twice a week. You can use Find a Provider to locate network doctors, hospitals and other healthcare professionals, and to create and print your own provider directory using your home computer and printer.

This printed directory is updated twice a year. You also can request an updated list of network providers in your area by calling the Member Service's telephone number on your Blue Shield member ID card.

Choosing a Personal Physician

You can choose a Personal Physician from the four types of doctors listed below:

Family/General Practitioners Doctors who treat children and adult men and women.

Internal Medicine Doctors who treat adult men and women over age 18

Obstetrics/Gynecology Doctors who treat adult women and teenage girls. (Note that not all OB/GYNs choose to be General Practitioners.)

Pediatrics Doctors who treat boys and girls up to age 18

To choose a Personal Physician, follow these steps:

1 In the IPA/medical group section of this directory, look for the name of the geographic area in which you live or work. If you know the name of the Personal Physician you would like to choose, you can refer to the General Index section of this directory. Personal Physicians are listed alphabetically by last name.

2 Choose the doctor you want as your Personal Physician. If you are interested in a particular specialist or OB/GYN, make sure that he or she is in the same IPA/medical group as the Personal Physician you choose. You will need an authorized referral from your Personal Physician's IPA/medical group before you can be treated by a specialist, except when you need an annual gynecological exam or when you use the *Access+ Specialist* option.

3 If you are an *Access+ HMO* member and want to be able to use the *Access+ Specialist* option, you must choose a Personal Physician who belongs to an IPA/medical group that is an *Access+* provider group. *Access+* provider groups have an "(A+)" next to their names. IPA/medical groups that are not *Access+* provider groups do not offer the *Access+ Specialist* option. *Access+ HMO* members may change Personal Physicians at any time to take advantage of the *Access+ Specialist* option.

4 Call the office of the Personal Physician you have selected to make sure that he or she is accepting new patients and to ask any questions you may have about the doctor (e.g., office hours, availability evenings and/or weekends and educational background).

5 Fill out the Blue Shield enrollment application and submit it to your employer's personnel department or benefits administrator. For an individual plan, return the application to your Blue Shield agent or to Blue Shield's Member Services Department. Be sure to indicate the name and provider number of the Personal Physician and IPA/medical group you select for you and each eligible family member.

If you need help choosing a Personal Physician, please call Blue Shield Member Services, Monday through Friday, 8 a.m. to 5 p.m., at the number on your Blue Shield ID card or at **(800) 424-6521**.

Changing Your Current Personal Physician

You should also refer to this directory when you want to change Personal Physicians. You may change Personal Physicians at any time for any reason. Just call Member Services at **(800) 424-6521**. The change will be effective the first day of the month following notice of approval by Blue Shield. Changing your Personal Physician or IPA/medical group during a course of treatment, during hospitalization, or while pregnant may interrupt the quality and continuity of your care. For this reason, the effective date of your new Personal Physician or designated IPA/medical group, when requested during a course of treatment, during an inpatient hospital stay or during the third trimester of pregnancy, will be the first of the following: (1) discharge from the hospital, (2) delivery, or (3) the date it is medically appropriate to transfer your care to a new Personal Physician, as determined by the health plan. Exceptions must be approved by the regional Blue Shield medical director. To request an exception, please contact Blue Shield Member Services. If your Personal Physician retires or leaves our HMO network, we will notify you in writing and give you the opportunity to choose a new Personal Physician.
