Engineering Night slated for April 16

Soquel High School will host an Engineering Night presentation for students and families from around the county 7-8:30 p.m. April 16 at 401 Soquel San Jose Road.

The Monterey Bay College Counselor Consortium is helping organize this event with from Soquel High counselor Sue Faix and Bryan Anderson, counselor for Soquel High's Green Manufacturing, Engineering, and Construction Academy. Spanish translation will be provided.

Duncan Murdoch, admissions director for the Western Region for Olin College of Engineering in Massachusetts, and Marc McGee, director of admissions and enrollment services at the California State University’s Maritime Academy, will discuss differences among university programs as well as the ways students should evaluate engineering programs and prepare for admission and success in the field.

A panel discussion will follow featuring local working engineers and representatives from other post-secondary engineering programs such as Cabrillo and UCSC.
