Cabrillo transportation-fee proposal not widely known

The Cabrillo College Student Senate is holding elections this week. On the election ballot, in addition to a roster of candidates for Senate officer positions, there are a number of proposals. One of the proposals, if approved, would create a new mandatory $40 transportation fee each semester beginning fall 2015. The fee could not be waived for financial hardship or prorated for part time students. Payment of the fee will give each student a sticker on their student card allowing them to use Santa Cruz Metro for the duration of the semester. The bus pass would not be transferable. There has been no mention of this proposed fee to the general student body. The information only appears when a student goes online to vote.
