

PREP

—a program designed to help students in developing the skills, habits and tools needed to succeed in mathematics at the precalculus level and beyond.

QUESTION...

- Are you motivated to improve your understanding and performance in math?
- Are you willing to invest time and effort into learning how to master skills needed for success in precalculus?
- Do you want to keep the doors open for yourself into majors in the science fields?

If you answered **YES** to these questions, **you are an excellent candidate for PREP.**

What would your responsibilities be?

- Faithfully attend an intensive program just before the Fall 2017 semester. Days and times for the intensive are August 7, 2017 through August 18, 2017 (Section 99853). (Week 1: Mon.8/7-Fri 8/11 & Week 2: Mon.8/14-Fri.8/18; daily from 8:30am - 12:45pm)
- Faithfully attend weekly Friday workshops throughout the Fall 2017 semester from 9:00-11:10 am.
- Have room in your schedule to be enrolled in one of these two Math 4 sections: MTWTh 11:10am-12:15pm with Alex Taurke, or MW 8:00-10:25am with Eric Miles.
- Note: you cannot be enrolled in these sections without attending the intensive that begins three weeks before the semester (intensive dates listed above).

What would you gain?

- Increased skill, confidence and success in college-level math topics.
- The ability to identify errors, to use graphing principles and to solve word problems.
- Improved study habits and an understanding of your own strengths and weaknesses.
- Experience in working effectively in small groups and using math vocabulary.

Take advantage of this valuable resource so we can help you achieve your potential in a science, engineering or math major! You will be surprised at what you can do when you learn to apply yourself effectively. To be part of the program, complete the online application that is linked below. PREP takes place on Cabrillo's Aptos campus in the STEM Center, Room 834.

To Apply: Complete the online application here: <http://go.cabrillo.edu/prep>. You will be contacted for a short interview after we receive your application.

For further questions, please call (831) 477-1719, or contact Sara Decelle, sadecell@cabrillo.edu

PREP was originally developed through a grant from the National Science Foundation and implemented by the Cabrillo MESA
