Multiple Enrollments in the Same Course in the Same Term

A student may not enroll in two or more sections of the same credit course during the same term unless the length of the course provides that the student is not enrolled in more than one section at any given time.

Overlapping Enrollments

The only instance for overlapping courses that will be considered shall be for cases of overlap for 10 minutes or less per week.

A student may enroll in two or more courses where the meeting times for the courses overlap, when all of the following are met:

The student provides a valid justification, other than scheduling convenience, of the need for an overlapping schedule.

A student obtains the signature of the faculty member who agrees to supervise directly all missed work each week, as well as the signature(s) of the dean(s) responsible for all impacted divisions.

The student makes up the overlapping time at some other time during the same week under the direct supervision of the instructor, and the instructor keeps written documentation of all work made up each week.
