STUDENT SUCCESS AND SUPPORT PROGRAM
(FORMERLY MATRICULATION)

Student Success and Support Program (51024)

1. Scope and Intent (§ 55500)

The following requirements apply to Cabrillo College as long as the District receives funds pursuant to Education Code section 78216 for the period of time during which such funds are received. (Sections 66700 and 70901, Education Code. Reference: Sections 78210-78218, Education Code.

Matriculation is a process that brings a college and a student into an agreement for the purpose of achieving the student’s educational goals and completing the student’s course of study. The Student Success and Support Program has been aligned with the provisions of the Seymour-Campbell Student Success Act of 2012, as codified in Education Code sections 78210, et seq., which recognizes that student success is the responsibility of the institution and student, supported by well-coordinated and evidence based student and instructional services to foster academic success. The purpose of the Student Success and Support Act of 2012 is to implement the Student Success and Support Program to increase California community college student access and success through the provision of core matriculation services, including orientation, assessment and placement, counseling, advising, and other education planning services. The goal of this program is to provide students with the support services necessary to assist them in achieving their education goal and identified course of study. “Student Success and Support Program Services” are those services listed in section 55520 below.

2. Required Services (§ 55520)

At a minimum, Cabrillo College will provide students, except as exempted pursuant to section 55532, with all of the following Student Success and Support Program services:

(a) orientation on a timely basis, pursuant to section 55521.
(b) assessment for all nonexempt students pursuant to section 55522;
(c) counseling, advising, or other education planning services for nonexempt students pursuant to section 55523;
(d) assistance in developing a student educational plan pursuant to section 55524, which identifies the student's education goal, course of study, and the courses, services, and programs to be used to achieve them;
(e) follow-up services, pursuant to section 55525, to evaluate the academic progress of, and provide support services to, at risk students; and
(f) referral of students to:
   (1) support services that may be available, including, but not limited to, counseling, financial aid, health and mental health services, employment services, Extended Opportunity Programs and Services, campus child care services, tutorial services, foster youth support services, veterans support services, and Disabled Students Programs and Services; and
(2) curriculum offerings which may be available, including but not limited to, basic skills, noncredit programs, and English as a Second Language.

The full definitions of each of the above services are found in 55502.

In addition to the three core required services (orientation, assessment, and educational planning), the College will work with students to identify:

(a) “Career goal” which is the student’s stated occupational interest upon application and is periodically updated during the student’s continued enrollment at the college. Students without a stated career goal will be identified and provided resources to support them in identifying a career goal.

(b) an “Educational goal” which is the student’s stated intent to earn a degree or career technical education certificate, prepare for transfer to a four years college or university, improve math or English basic skills or English language proficiency, or pursue career advancement or occupational training or retraining, or other educational interest. The education goal is initially identified during the application process and updated throughout the student’s academic career at the college during subsequent course registration or educational planning processes.

(c) a “Course of study” which is the student’s chosen educational program, major or area of emphasis, course sequence for transfer preparation, completion of basic skills, or English as Second Language proficiency. Students without a stated course of study or major will be identified and provided resources to support them in identifying a course of study as early as is appropriate and reasonable in their college progression.

For purposes of this section, first time enrollment does not include concurrent enrollment during high school. To the extent that a college has the capacity to require and provide the services identified in (b) (1) through (4) to other students, nothing in this section would preclude a college from doing so.

degree applicable credit course work or prior to the end of the 3rd semester of enrollment, or a shorter period if required by district or program policy.
