COMMUNITY HEALTH WORKER CERTIFICATE OF ACHIEVEMENT

The Community Health Worker (CHW) Program trains and certifies students to work in the fields of public health, health care, and social services. Community Health Workers (CHWs) provide a wide range of services, including health outreach and education, client-centered counseling and case management, and client and community-based advocacy. They work to reduce unequal rates of illness and death between different communities and to promote health equity or justice, prioritizing communities with the greatest health risks.

Learning Outcomes

Identify basic health needs and evaluate health and human service resources within the community.

Demonstrate CHW professional skills and job readiness in the core competencies identified by the Community Health Care Worker Core Consensus Project (C3) and the needs of the local community.

Earn a certificate in **TWO** semesters!

Register for **HS130** to learn about the field of Community Health Education and the roles of Community Health Workers while exploring a variety of issues and skills pertinent to the profession.

Community Health Worker, Health with Heart!
