MATH 18 OPTIONAL TAKE HOME QUIZ
Due NO LATER than 11:10AM, Thursday, May 27. 2010. Late papers will NOT be accepted.
Work individually.
The grade on this optional quiz will replace your lowest quiz grade. If your score is lower than any of your other six quiz scores, this grade will be averaged with the lowest score.

Do any four of the following six questions. When appropriate, circle answers. If writing a sentence, use complete, correct English sentences. (5 pts. each)

1. Ch. 2 Review: p. 122: #22c

2. Ch 3. Review: p. 159: #48

3. Ch. 4 Review: p. 224: #26 Answer the first two questions only.
4. Ch. 5 Review: p. 265: #24. First write the definite integral. Then approximate its value using \( n = 3 \) & left-hand sums. Round the final answer to the nearest cent.

5. Ch. 7.3, p. 312: #32

6. Ch. 9 Review, p.391: #16
