Objective

To obtain a position with a private organization or government agency that will allow me to utilize my scientific and analytical skills to develop practical solutions to environmental problems. My long-term career goal is to obtain a technical position in the marine or environmental field.

Education

Monterey Peninsula College, Monterey, CA. A.S. expected June, 2003, MATE (Marine Science and Technology). Coursework to date includes chemistry, mathematics, statistics, marine biology, basic electronics.

Salinas High School, Salinas, CA. H.S. Diploma, 1998

Work Experience

Field Technician, *Bay Area Consultants, Monterey, CA, 1999-2001*. Assisted with soil and water quality monitoring for site remediation projects. Performed data entry for monitoring sites.

Intern, *Monterey Bay Aquarium, Monterey, CA, 1999*. Interacted with public on a daily basis. Answered questions about exhibits, facilities, and aquarium history. Assisted with the development of educational materials for local elementary schools.

Sales Associate, *Marigold Art, Salinas, CA, 1998-99*. Worked in a professional sales environment at a small photography studio. Responsible for sales, inventory, minor accounting, and display design. Top salesperson in 1999.

Honors

Dean's Honor Roll, Monterey Peninsula College, 2002

Certifications

Wilderness First Responder, Wilderness Medical Associates, 5/97 to current

CPR, (BLS for healthcare providers), American Heart Association, current through 6/02
