Technology

1. Optional air cleaner cabinet — allows for the easy and convenient addition of a Carrier™ high-efficiency air filter for enhanced air quality.

2. Burner ignition — as one of the most robust and durable ignition systems available, Power Heat™ hot surface ignition replaces pilot lights and reduces utility consumption.

3. Two-stage gas valve — provides two heating capacities. The low capacity works during milder days while the high capacity engages during colder temperatures.

4. Variable speed inducer — precisely controls air intake within the combustion system for high-efficiency performance.

5. Variable speed blower motor — ensures consistent airflow and temperature maintenance, helping to keep rooms more comfortable while improving air quality.

6. Two heat exchangers — extract heat from the gas you use and transfer it to warm the air. The primary heat exchanger extracts 80% of the heat while the secondary heat exchanger extracts an additional 12 - 16%, helping to ensure efficient, reliable performance.

7. Sealed combustion system — reduces cold air infiltration while providing quieter operation.

Limited Warranty

To the original owner, the Carrier Performance 96 gas furnace is covered by a 10-year parts and lifetime heat exchanger limited warranty upon timely registration of your new equipment.* The secondary heat exchanger carries a 20-year labor limited warranty. Ask your Carrier dealer about optional extended warranties, which may include labor.

* Warranty period is five years on parts and 20 years on heat exchangers if not registered within 90 days. Jurisdictions where warranty benefits cannot be conditioned on registration will automatically receive a 10-year parts limited warranty and a lifetime parts limited warranty on the heat exchangers. See warranty certificate at carrier.com for complete details.
