What do I write?

0. Provide a header on your hardcopy that includes your name, class name (CS 12J), date, and assignment name: Ages.

1. Describe your process for moving through the three clues. Number each clue and show the information you used for each of the three clues. An example for clue #1 would be to list all the triples like (1,1, 36) whose product is 36. So, the same for clue #2 and clue #3.

2. Show how you got to the solution, or how far you got and "how you were thinking about the problem." If you had false starts or used information that was not useful, tell me what it was.

3. Tell me if the problem was too hard (why), too easy (why) or just right (why).
