Student survey
Math 4: Pre-Calculus

Name__________________________

Phone________________ email ___________________________ Date of Birth________________

It's important for me to learn everyone's name in the class as soon as possible. I find it helpful to attach a name to a face. So please use this space to attach a photograph of you. Please choose a photo that is similar to your current appearance. For example: no baby pictures.

College Major and/or favorite subject(s)__________________________________________

Do you have any time consuming out-of-classroom responsibilities (work, family, single parent, sports, clubs, etc.)

Are you repeating this class at Cabrillo? ______ If yes, then how many previous attempts? ______

If you qualified for this class by passing math 152 (or its equivalent), please answer the following about your Math 154 class:

Date Completed________________________
Grade received________________________
Teacher (if Cabrillo)___________________

If you assessed into this class
Please fill in the following:

Name of your most recent math class

The grade you received________________
The date you completed the class__________
Why are you taking this class?

Share your previous experience with math. Love it? Hate it? Sort of like it, but it’s hard?

What do you do for fun?

---

Solve this equation. Show all steps:

\[ 2x^2 - 1 = 5 \]
