As a student in this class, you are expected to...

• Attend class regularly. Come prepared to pay attention, take notes, ask appropriate questions (see below), and treat others in the classroom (including the Instructor) with courtesy and tolerance.

• Before each class meeting, review the notes/discussion from the previous meeting, work through the assigned problems.

• Ask appropriate questions. Most questions pertaining to the course are “appropriate”, but questions that clearly demonstrate that a student has not reviewed the material or has not done the assigned work are seen as not appropriate. Most instructors do not respond favorably to these questions.

• Show a commitment to doing well in the course. If the course is important to you and your academic future, treat it so. If it is not a vital course for you at this point in time, treat it so.
