

What's your Grade Point Average (GPA)?

I can't remember.

My school doesn't use grades.

My school is not in the US.

That's okay! We need your best estimate. This guide will help you figure it out. You know the kind of student you are (or were). Using the chart below, find the best description of your student-self to estimate your GPA. Then, record your GPA in Student Placement Guide eForm.

Please note: your GPA takes into account ALL the subjects and classes you have completed.

For example: if you got mostly A's and B's your GPA would be 3.5

Find the best description of yourself as a student, work your way across to your GPA.

Complete this phase: "I am _____ student"	Your grades	Your percentage	Your GPA
an excellent	A	90-100%	4.0
	A-		3.7
	B+		3.3
a good	B	80-89%	3.0
	B-		2.7
	C+		2.3
a satisfactory	C	70-79%	2.0
	C-		1.7
	D+		1.3
not a satisfactory	D	60-69%	1.0
	D-		0.7
not a passing	F	50% and below	0.0
